4.0 Patron Profile

Youth patrons

Map 4.7: Percent Youth Patrons

Map Notes

- Measures youth patrons as a percent of the total patrons by Census block group
- Youth age range is 0 to 19 years old
- Dark colors indicate a higher percentage of youth patrons relative to total patrons; light colors lower percentage of youth patrons relative to total patrons
- The highest percent of youth patrons are located in south Lakewood and West Murphy followed by portions of Washington, Ponderosa, De Anza, Serra, and Ortega

4.0 Patron Profile

Adult patrons

Map 4.8: Percent Adult Patrons

Map Notes

- Measures adult patrons as a percent of the total patrons by Census block group
- Adult age range is 20 to 64 years old
- Dark colors indicate a higher percentage of adult patrons relative to total patrons; light colors lower percentage of adult patrons relative to total patrons
- The highest percent of adult patrons appear to be located in Lakewood north of Highway 237. This area has a few patrons who register at their place of business. Given the extremely low residential population in this area, it appears that there is a high percent of adult patrons in this area.
- The highest percent of adult patrons actually are located in West Murphy, East Murphy, and Ponderosa

4.0 Patron Profile

Senior patrons

Map 4.9: Percent Senior Patrons

Map Notes

- Measures senior patrons as a percent of the total patrons by Census block group
- Senior age range is 65 years old and over
- Dark colors indicate a higher percentage of senior patrons relative to total patrons; light colors lower percentage of senior patrons relative to total patrons
- The highest percent of senior population is located in Lakewood south of Highway 101 and in the southern part of the city in Serra and portions of De Anza, Ortega, and Raynor
