January 12, 2009

Dear Cherrywood neighbors,

We, the Board of Directors for the Cherrywood Homeowner's Association, would like to bring a matter of the utmost importance to your attention. The City of Sunnyvale is considering a proposal from the Mid Peninsula Housing Coalition (MPHC) for the construction of 124 low-income senior housing units on the site right next to the new Fair Oaks Clinic. If granted the proposal, MPHC will also erect a four-story garage for use by the Fair Oaks Clinic with the capacity to park 250 cars; the garage will abut right up against our property.

Attached you will find a diagram that shows where the proposed parking garage would go: Directly across the lawn from the units at the far end of Garland Avenue.

This project seems to be in full swing, so we don't have very much time to oppose this proposed property development. We ask that you think about the impact of even more construction, and having to live right next to a four-story garage with the noise and fumes and stress that come along with that.

Please sign the bottom of this letter and return it in the enclosed envelope to voice your support to stop this project before it can be allowed to become an unhealthy imposition affecting the quality of life in our community. We will let you know when the next scheduled community meeting discussing the MPHC proposal will occur. The more of us who attend, the stronger the impression we make as a united community standing against this proposed project.

Thank you in advance for your support.

Sincerely,

Your Board of Directors
Cherrywood Condominium Association

Dear Cherrywood neighbors,

We, the Board of Directors for the Cherrywood Homeowner's Association, would like to bring a matter of the utmost importance to your attention. The City of Sunnyvale is considering a proposal from the Mid Peninsula Housing Coalition (MPHC) for the construction of 124 low-income senior housing units on the site right next to the new Fair Oaks Clinic. If granted the proposal, MPHC will also erect a four-story garage for use by the Fair Oaks Clinic with the capacity to park 250 cars; the garage will abut right up against our property.

Attached you will find a diagram that shows where the proposed parking garage would go: Directly across the lawn from the units at the far end of Garland Avenue.

This project seems to be in full swing, so we don't have very much time to oppose this proposed property development. We ask that you think about the impact of even more construction, and having to live right next to a four-story garage with the noise and fumes and stress that come along with that.

Please sign the bottom of this letter and return it in the enclosed envelope to voice your support to stop this project before it can be allowed to become an unhealthy imposition affecting the quality of life in our community. We will let you know when the next scheduled community meeting discussing the MPHC proposal will occur. The more of us who attend, the stronger the impression we make as a united community standing against this proposed project.

Thank you in advance for your support.

Sincerely,

Your Board of Directors
Cherrywood Condominium Association

We, the Board of Directors for the Cherrywood Homeowner's Association, would like to bring a matter of the utmost importance to your attention. The City of Sunnyvale is considering a proposal from the Mid Peninsula Housing Coalition (MPHC) for the construction of 124 low-income senior housing units on the site right next to the new Fair Oaks Clinic. If granted the proposal, MPHC will also erect a four-story garage for use by the Fair Oaks Clinic with the capacity to park 250 cars; the garage will abut right up against our property.

Attached you will find a diagram that shows where the proposed parking garage would go: Directly across the lawn from the units at the far end of Garland Avenue.

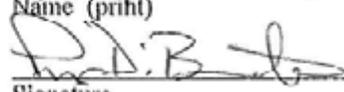

This project seems to be in full swing, so we don't have very much time to oppose this proposed property development. We ask that you think about the impact of even more construction, and having to live right next to a four-story garage with the noise and fumes and stress that come along with that.

Please sign the bottom of this letter and return it in the enclosed envelope to voice your support to stop this project before it can be allowed to become an unhealthy imposition affecting the quality of life in our community. We will let you know when the next scheduled community meeting discussing the MPHC proposal will occur. The more of us who attend, the stronger the impression we make as a united community standing against this proposed project.

Thank you in advance for your support.

Sincerely,

Your Board of Directors
Cherrywood Condominium Association
