

**Council Meeting: February 9, 2010****SUBJECT: City of Sunnyvale Investment Report – 4th Quarter 2009****BACKGROUND**

In accordance with Government Code Section 53646, staff is submitting the attached investment report for Council's review. The report includes all investments managed by the City of Sunnyvale. Staff invests all reserve funds and operating funds not immediately needed for disbursement. Funds for the City's Deferred Compensation Plan, the City's Retirement Plan and any proceeds of debt issuance are not invested by City staff. These funds are managed by third party administrators. This report provides information on the values (par, book and market), type of investment, issuer, maturity date and yield of each security. Summary information by type of security and detailed information on each security is provided. An evaluation of portfolio performance this accounting period compared to the previous accounting period and compared to the same accounting period of last fiscal year is also included.

Securities are priced by an independent pricing service at the end of every accounting period. In some cases, the City may have investments with a current market value that is greater or less than the recorded value. These changes in market value are due to fluctuations in the marketplace having no effect on yield, as the City does not intend to sell securities prior to maturity.

The market value is higher than recorded value for this quarter due to changes in the market as mentioned in the previous paragraph.

DISCUSSION

In light of the current turmoil in the financial markets, staff continues to remain fiscally conservative and focus investment decisions in accordance with safety, liquidity and yield in that order. Safety of principal is the foremost objective of the investment program.

Diversification is required in order that potential losses on individual securities do not exceed the income generated. The City's investment policy addresses diversification as follows: No more than 5% of the total portfolio may be invested in securities of any single issuer, other than the U.S. Government, its agencies and instrumentalities and the State's Local Agency Investment Fund (LAIF.) There are no limitations on investments issued by the U.S. Treasury. Securities issued and fully guaranteed by a federal agency or Government

Sponsored Enterprise are limited to no more than 30% of the portfolio. No more than 20% of the portfolio may be invested in LAIF. Our portfolio fully complies with these limitations. The individual investments may be seen in Attachment A of this report.

Because U.S. Treasury obligations are considered to be the safest investment vehicle, currently many market participants are investing heavily in these instruments due to the current financial uncertainty. As this flight to quality continues, increasing demand for U.S. Treasury securities has caused yields on these conservative investments to decline significantly. This will have a negative impact on the City's investment earnings.

The duration of the instability of the market is not known. Staff will keep the Council apprised of changes in the market that affect the investment portfolio as necessary.

FISCAL IMPACT

Interest earnings for FY 2009/2010 as of Period 7 for all City funds totaled \$1,600,661.29.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall, in the Council Chambers lobby, in the Office of the City Clerk, at the Library, Senior Center, Community Center and Department of Public Safety; posting the agenda and report on the City's Web site; and making the report available at the Library and the Office of the City Clerk.

RECOMMENDATION

It is recommended that the City Council receive and file the investment report.
