

**Council Meeting: June 7, 2011****SUBJECT: Approval of Budget Modification No. 33 to Appropriate Department of Homeland Security Funding, and Award of Contract to Purchase Mobile Command Vehicle (F1001-63)****BACKGROUND**

The Sunnyvale Department of Public Safety (DPS) participates annually in the State Homeland Security Grant Program (SHSGP), which provides funding from the federal Department of Homeland Security (DHS) to the County of Santa Clara (Operational Area) to address the identified planning, organization, equipment, training, and exercise needs for acts of terrorism and other catastrophic events. The City Council previously approved DPS' ongoing participation in this program in 2007 (RTC No. 07-327).

In conjunction with this partnership, the City has entered into a Memorandum of Understanding (MOU) with the County of Santa Clara for the distribution and utilization of 2009 SHSGP funding in the amount of \$295,000 for the purchase of a mobile command center vehicle to provide command/control capabilities to locally and regionally deployed public safety assets (Attachment A). These assets include police and fire operational/tactical units, explosive detection canine teams, Office of Emergency Services disaster response and recovery equipment and support for volunteer resources such as Sunnyvale Neighborhoods Actively Prepared (SNAP) and the Sunnyvale Amateur Radio Emergency System (SARES).

In order to effect the purchase of the mobile command vehicle, two actions are required by Council: Approve Budget Modification No. 33 to appropriate \$295,000 in grant funding, and award of the contract for vehicle purchase to Lynch Diversified Vehicles (LDV) of Burlington, Wisconsin, in the amount of \$315,694 plus applicable taxes. The total cost for the vehicle purchase is not anticipated to exceed \$350,000, and is fully funded through this grant and DPS special project 828650, Emergency Management Preparedness Grant.

DISCUSSION

DPS annually submits requests to the County Operational Area (or Op Area, which administers the SHSGP) for equipment that will enhance the City of Sunnyvale's ability to deter, prevent, respond to, and recover from a man made or natural disaster. These requests are designed to address stated Op Area program goals as identified by DHS. The County Op Area reviews and

establishes the guidelines for the allocation of the funding. The County Op Area then notifies the agencies of their allotment and the approved equipment projects. For the 2009 SHSGP allocation, DPS was approved for a number of chemical, biological, radiological, nuclear, and explosive preparedness training classes (RTC No. 10-150), and for this particular vehicle purchase. Funds associated with this procurement must be expended by December 31, 2011. DPS anticipates delivery of the command and control vehicle in November 2011, but no later than December 30th.

Section 2.08.060(f) of the Sunnyvale Municipal Code allows for the use of “alternate methods of procurement” to the City’s standard Invitation for Bids or Request for Proposals processes, provided that such methods do not inhibit fair/open competition, do not compromise the integrity of the procurement process, and are approved in advance in writing by the City Manager. In this case, purchasing staff received approval to utilize the United States’ General Services Administration (GSA) Disaster Recovery Purchasing Program in order to procure the LDV vehicle. Staff also evaluated participation in the California Emergency Management Agency’s (Cal-EMA) 1122 Purchasing Program, which uses the federal GSA process to procure the equipment on behalf of the local entity. However, the 1122 Program requires up-front payment to the State at the time the vehicle is ordered, rather than paying when the vehicle is received (as allowed by purchasing directly through GSA’s Disaster Recovery Purchasing Program).

Public safety staff conducted comparative analysis of six mobile command vehicles offered by GSA “schedule vendors”, or those companies with approved contracts authorized by GSA to sell the vehicles to government entities. Vehicles from the following manufacturers were reviewed:

- Emergency Vehicles, Inc. (1)
- Farber Specialty Vehicles, Inc. (2)
- Lynch Diversified Vehicles, Inc. (1)
- Specialty Vehicle Solutions, LLC (1); and
- VT Hackney, Inc. (1)

Of the six models reviewed, pricing ranged from a low of \$304,975 to a high of \$376,106. Given the number and combination of different vehicle options, and the resultant impact on pricing, it is difficult to draw direct “apples-to-apples” comparisons across manufacturers. As just one example, staff reviewed a vehicle with a posted “base” price of \$240,432 but this did not include any of the audio/video, telephonic or computer options, which increase the price to approximately \$354,000. Other items that impact the procurement include, but are not limited to, delivery schedule, delivery charges, training on use of

equipment, and prompt payment discount terms. As recommended by the GSA Disaster Recovery Program representative, staff directly contacted the schedule vendors to request additional pricing discounts, but all vendors indicated that the posted pricing was the lowest price offered at a quantity of one.

Taking all factors into consideration, DPS staff selected the LDV vehicle as the best possible value to the City for the following reasons:

- Favorable pricing of \$315,694 was the second lowest posted price
- 2% prompt payment discount vs. 1% offered by the lowest priced vendor
- Guaranteed delivery by December 30, 2011
- No additional delivery charges
- Up to 8 hours of operational training on vehicle usage upon delivery
- Manufacturer qualifications/experience and product reliability
- Best mix of product/specification requirements
- Same manufacturer of Palo Alto's command vehicle, which will enhance interoperability between and among agencies in the event of a disaster.

FISCAL IMPACT

The total cost to purchase this mobile command vehicle is not anticipated to exceed \$350,000, and it is funded entirely through grant revenues. With the 2% prompt payment discount, the total cost is expected to be \$338,000. Budget Modification No. 33 has been prepared to appropriate \$295,000 in 2009 SHSGP grant revenues to Project 828650 – Emergency Management Preparedness Grant to fund this purchase. Ongoing maintenance costs are expected to be approximately \$3,400 annually and will be covered by future Emergency Management Preparedness Grant revenues, resulting in no fiscal impact to the General Fund. Should ongoing Emergency Management Preparedness Grant revenues be discontinued prior to this vehicle's end of life, ongoing maintenance costs will be absorbed within the Department of Public Safety's operating budget or a new source of grant funding will need to be established.

Funds in the amount of \$1,155,655 have been set aside for the training program and \$248,452 for the exercise program from the total Homeland Security grant to be allocated during the term of this Agreement. The Office of Emergency Services will allocate training and exercise funds to agencies as determined by the Training/Exercise Advisory Group.
