SUBJECT: Award of Contracts for Asphalitic Materials for Pavement Operations

BACKGROUND
Approval is requested to award three contracts for asphalitic materials – emulsion oils, asphalt concrete, pavement reinforcement fabric and various filler/sealer materials – for regular repair and maintenance of City streets and parking lots. A primary contract is typically awarded based on the preponderance of low bid line items, with smaller contracts held in reserve to be used if necessary due to plant closures, product availability, etc.

Staff recommends a primary contract with Graniterock Company (Graniterock) of Redwood City in the amount of $500,000, and backup contracts with Granite Construction Company (Granite) of Santa Clara and Reed & Graham of San Jose in the amounts of $115,000 each.

DISCUSSION
Typically, asphalitic material contracts are bid in one-year cycles and may include a one-year renewal option. The relatively short duration of the contract is mainly due to marketplace volatility of petroleum-based products.

The three known asphalitic material suppliers in the area are Graniterock, Granite and Reed & Graham. Consequently, bid opportunities are provided directly to these suppliers. Bids have historically been received by at least two of the firms. Staff inadvertently omitted Granite from the bid list, and Reed & Graham failed to submit a bid, leaving Graniterock as the only responsive bidder. Invitation for Bids F13-53 was issued on April 30, 2013, with bids due on May 15, 2013.

To ensure the highest and quickest level of availability for street repair products as operational need arises, staff recommends awarding a primary contract to Graniterock, with backup contracts to Granite and Reed & Graham (even though they did not submit bids). Under normal circumstances, contracts would not be recommended to firms who did not respond to the bid opportunity. However, there are several overriding considerations which justify the award of multiple contracts, as follows.
The City must have at least two contracts in place, preferably three, as plant closures are common and much of the bulk material purchased must be used immediately. The situation is complicated by the fact that none of the suppliers can offer all of the required bid items (see Attachment B for list of available products). Additionally, demand for asphaltic materials can exceed available supply at any given supplier throughout the year. Moreover, Reed & Graham has agreed to hold their pricing at last year’s levels, and pricing received from Granite for asphalt concrete and road patching material is competitive compared to the other suppliers (and they are amenable to contracting with the City as a backup supplier). Finally, in understanding the City’s operational need for multiple material sources, Granite does not object to the City awarding smaller backup contracts to the non-bidding firms.

It should be noted that Council could reject the one bid received and staff could re-issue the bid. This is not an optimal approach as it would put the primary bidding firm at a competitive disadvantage. For successive bid opportunities, staff will make every effort to ensure appropriate outreach to all known material suppliers.

**FISCAL IMPACT**
Approximately $730,000 in budgeted funds is available in Public Works Operating Program 120 (Pavement, Traffic Signs and Markings, Street Sweeping and Roadside Easements). This amount is sufficient for planned quantities over the next year.

**PUBLIC CONTACT**
Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall, at the Sunnyvale Senior Center, Community Center and Department of Public Safety; and by making the agenda and report available at the Sunnyvale Public Library, the Office of the City Clerk and on the City’s Web site.
RECOMMENDATION
It is recommended that Council:

1. Award a one-year contract for asphaltic materials, in substantially the same form as the attached Draft Blanket Purchase Order and in an amount not-to-exceed $500,000 to Graniterock Company;
2. Award a one-year contract for asphaltic materials, in substantially the same form as the attached Draft Blanket Purchase Order and in an amount not-to-exceed $115,000 to Granite Construction Company; and
3. Award a one-year contract for asphaltic materials, in substantially the same form as the attached Draft Blanket Purchase Order and in an amount not-to-exceed $115,000 to Reed & Graham.
