

Traditional Day Camps

Two summer day camps back by popular demand! Eight fun filled weeks designed specifically for each age group. Our fun and engaging recreational games, activities and field trips are designed for skills and interests of each age group. Participants will receive one camp T-shirt for the first session registered in; additional shirts can be purchased at camp. Extended Care option is available. Field trip locations and days are subject to change. No Camp 7/4.

Camp Quest (5-7years)

Location: Washington Park Building
(840 W. Washington Ave.)

Core Camp Days/Times: M-F, 9:00am - 5:00pm
Extended Care Option: M-F, 7:30am - 6:00pm

Staffing:

- Staff to Participant Ratio: 1:8 ratio
- Friendly, fun, and energetic staff
- Caring, patient, approachable and well trained staff.

Each camp week includes:

- Age appropriate craft projects sure to please our younger campers.
- Goofy-n'-crazy indoor & outdoor games, fun obstacle courses, and lively summer time activities designed around the skill level and interest of 5-7 yr. old children.
- Storytime with camp staff and a weekly visit from our friendly Sunnyvale Librarians.
- Participate in one field trip or special on-site event each session, typically held on Thursdays. Field trip locations and days are subject to change.
- Enjoy a weekly walking trip to Washington Pool for Recreation Swim, typically held on Fridays. Washington's Pool depth is 2.5' to 12'. Recreation Swim details visit swim.insunnyvale.com

Camp Voyager (7-11years)

Location: De Anza Park Building
(1150 Lime Dr. at Rockefeller Dr.)

Core Camp Days/Times: M-F, 9:00am - 5:00pm
Extended Care Option: M-F, 7:30am - 6:00pm

Staffing:

- Staff to Participant Ratio: 1:10 ratio
- Friendly, fun, and energetic staff
- Caring, patient, approachable and well trained staff.

Each camp week includes:

- Age appropriate team building games, fun contests and challenges, along with engaging hands on projects that are appealing to kids 7-11years. Dynamic indoor & outdoor games and activities designed specifically around the interest and skill level of older kids.
- Participate in one off-site field trip each session, typically on Wednesdays. Field trip locations and days are subject to change.
- Enjoy a weekly walking trip to Sunnyvale Middle School Pool for Recreation Swim, typically on Thursdays. Sunnyvale Middle School Pool depth is 3.5' to 12'.

Summer Safari Preschool Camps (3-5years)

Your preschoolers will enjoy a summer packed full of fun adventures when they participate in our Summer Safari Preschool Camps. Each session will introduce children to different materials and hands-on learning opportunities through art, music, language, reading and motor-skill activities. This program is a play-based preschool in a safe environment which will help your child to develop social and basic academic skills. Children must be toilet trained by first day of class. Children will receive ONE T-SHIRT for the first session registered in.

Camp Crusade (5-11years)

Camp Crusade features fun indoor/outdoor recreational games, arts & crafts, and goofy contests as well as two recreational swim days at Washington Pool. (Campers will be separated into appropriate age groups for some of our games and activities.) All participants need to bring a daily lunch, bottled water, 2 snacks (morning & afternoon), and sunscreen. On recreational swim days please bring swim suit, towel, and a dry change of clothes. Washington pool depth is 2.5' to 12'. Recreation swim details visit: swim.insunnyvale.com

Awesome Engineering (7-12years)

Are you ready to have an AWESOME time? Our Engineering and Construction program will teach you fundamental engineering and construction concepts using Erector educational toys. You will build things you encounter everyday; including bridges, cars, skyscrapers and more! Some of the concepts covered include: Torque vs. Speed, Belt and Pulley Systems, Gravity, Friction and Truss Systems. In class, you are provided with everything you need to build each project which includes a tool belt, tools and project pieces. This hands-on class will allow you to work together or solve problems while building projects. It's sure to be AWESOME! Bring a bag lunch each day.

Instructor: Awesomengineering Staff

Location: Raynor Park Building

Aviation and Structural Design

Learn how to build aircrafts and structures you see everyday; including airplanes, helicopters, chairlifts, skyscrapers, bridges, houses and more! Some of the concepts covered include; truss systems, suspension systems, gear systems, structural significance, failure analysis, gravity and friction.

Sciensational Camps (6-12years)

With fabulous hand-on activities and take home projects, Sciensational offers children an amazing summer full of exploration and fun they will never forget! Full-day and full-day extended care participants should bring a bag lunch daily. PLEASE NOTE: Lunch supervision (12-1pm) is ONLY provided for FULL-DAY or FULL-DAY EXTENDED CARE participants. Half-day participants are expected to be picked up promptly at 12 noon, or dropped off no earlier than 1pm.

Make It and Take it Home - AM (6-11years)

In this hands-on, fun, and exciting program, you will discover how amazing science is. You will make and take home a wide assortment of toys designed to teach you science concepts in a hands-on way. Grow and take home a crystal tree. Make an energy bead bracelet and watch as those amazing beads turn from white to a rainbow of colors before your eyes. Build a working electric motor. Make your own sharpie pen T-shirt and learn some cool chemistry (student supplies a 100% cotton T-shirt). Make your own bubbling blobs and explore the properties of a density tube. Make silly putty—glowing goo—green flubber and other cool projects. By the way...we will make ice cream in our own amazing, different, Sciensational way!

Chemical Magic/Magical Microscopes/Rocks & Minerals - PM (6-11years)

Learn to make batteries from fruits or potatoes. Make a fantastic crystal tree. Work with invisible ink. See the happy and sad balls. Work with our powerful magnets. Look at our prepared slides using our microscopes. Learn about the different types of rocks and minerals from our interesting rock and mineral collection. Be a chemical detective. Make glob from glue. Use paper chromatography to separate colors. Make dirty pennies turn clean and clean pennies turn green. Everything will be explained to you so you can go home having learned some interesting science. Hands-on science is the best way to learn.

Lasers/Galaxies and Then Some - AM (6-11years)

Children explore science as a fun and exciting process of investigation. Each day we conduct experiments, discover the amazing, and test our own ideas. You will learn about LASERS. Dancing, swirling, pulsating laser light will be part of our Laser Light Show. Work with our light blitzer as a laser light flashes to music. We will conduct experiments with our LASER POINTER plus lenses and mirrors as we have fun and learn. Build and take home your own kaleidoscope, spectroscope, periscope and constellation watcher. Watch the constellations in our room and learn about all the planets as you take our 3-D Adventure into outer space! This workshop will be a De-Light-ful hands-on experience.

Electronic Lab - PM (6-11years)

30 different projects and experiments are built with your own electronic kit to keep in this hands-on workshop. The Science Electronics Lab will stimulate kids' minds by using easy to understand experiments to increase their knowledge of electronics. Science project ideas will come alive as they build the 30 projects while working with Electronic Circuits. The electronics kit is reusable. Have fun designing your own projects once you've built all 30. Kids can proceed at their own pace. Each participant will keep: an 80 page manual, 1 solderless circuit board, 12 resistors, 2 capacitors, 2 light-emitting diodes, 2 transistors, 1 battery snap, 1 diode, 1 speaker, 1 timer, 1 photocell, 1 rectifier, 1 potentiometer, and 1 switch. Learn the ins and outs of how they work. Kids will be grouped by age.

Egyptian Dig - AM (6-11years)

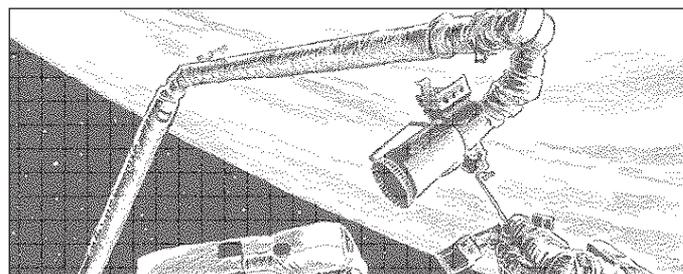

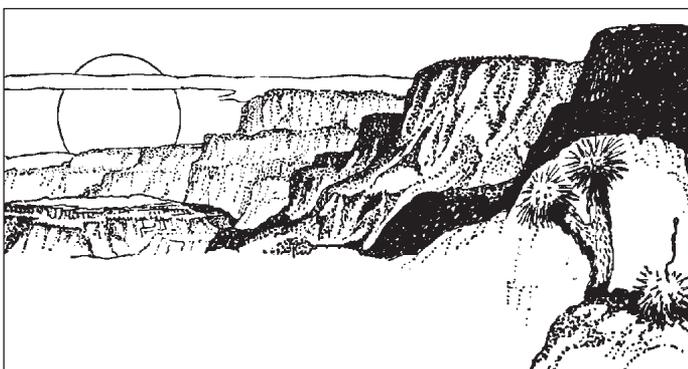

Discover the amazing science of Archaeology as you uncover ancient artifacts. In doing this, we will learn about Egyptian life. We will excavate with tools like a real archaeologist uses. We will find the following artifacts as we excavate a scarab (what's that?), hieroglyphic tablet, ankh symbol and a jackal. You will learn about this and even take home a booklet. The artifacts are yours to keep. We will wet the sand that we dig into and create one of two sand sculptures for display. You can make a pyramid as well as a sphinx. Let's go back in time with a hands-on archaeological experience!

Prospectors Mystery Rock Workshop - PM (6-11years)

You are going to be a Prospector (you know those people who were always looking for gold). In this workshop you will get to excavate for valuable gems, fascinating rocks, and some ancient fossils. All are yours to keep. What hidden wonders will you find? The identities of the 10 specimens found in your Mystery Rock have been kept a secret from you. You will experience the thrill of discovery, much as prospectors did. You will be able to identify each one. Your specimens are in a hard clay material the same as prospectors found. You will have to get them out without breaking or scratching them. That's not that easy. You will get an excavation tool, specimen brush, log book, sorting trays and labels. You will, as a Prospector, record the color, both wet and dry texture, and its ability to float for each of the 10 specimens you dig out. Make an educated guess with our help to whether each one is a rock, gem, or fossil. See how good you are. You will learn from us the exact name and classification. We give you hands-on science...Prospectors style - fun - educational - exciting!

Robotic Arm Science - AM (8-12years)

Learn the science of robotics as you have fun building, commanding and taking home your own 5 motor arm! With your Robotic Arm you can command your gripper to open and close, move your robotic wrist, elbow, base and command vertical and horizontal reaching moves. Your robot will be equipped with 100 grams of lifting capacity. Additional features include a search light on the gripper for night operation. With your Robotic Arm you will have total command and visual manipulation using the five switch wired controller. Plus, have fun building a wide range of additional robotic designs with the robotic building system. Participate in our robot Olympic style challenges, robot battles and more!

Roller Coasters & Amusement Park Rides - PM (8-12years)

Learn simple engineering ideas, but come here for action and fun. Build a working Roller Coaster, as part of a group, and watch as our coaster cars go up and down steep inclines, as well as through many thrilling loops. Our Roller Coaster will be 3 ft. long and 3 ft. high. See if you can change things to make the ride more exciting. Students will learn first hand the mechanism of a Roller Coaster. Design and help build other amusement park rides, such as a Ferris Wheel, Octopus Whirl, Swing Ride or other types of rides. We'll have our own great adventure working... learning...and having fun!

Model Airplanes/Bridge Building/Electronic Gadgets - AM (7-12years)

Build your own rubber-powered model airplane. Use your model as a learning tool in aerospace education, or just have fun building a sound airplane that actually flies when assembled. Have fun designing and building model bridges. Join us in our bridge building contest to see which one can hold the most weight. Learn simple engineering skills. Build 6 electronic projects. Some of them include a patrol car siren, burglar alarm and morse code transmitter. You will learn how the different electronic components work. Bring a little imagination and get ready to "Fly with Scienstational Workshops."

Engino Building/Engineer-Architect/Creativity Workshop - PM (7-12years)

Activites Include: Work with an advanced and three dimensional construction kit that is yours to keep and take home. Be able to build and design your own creations. You will also get your own 3-volt geared motor. Power up a moveable Radar Surveyor and see how many other ways you can make your motor work for you. Work with the rods and connectors that allow you to join six sides at once. You can build simple or complex models. Build a vehicle, chopper, robot, buildings and much more. Join us to build from directions and from your own imagination and design. Hands on is the only way!

Follow Me Robot - AM (7-12years)

How would you like to build a robot that has four built-in microphones? It will detect the sound source and in turn it will move and turn accordingly. It is your own robot to build and take home. Wow! It starts flashing and plays Do-Re-Me. Make it move the way you want it to move. It is so smart. It will move in its own routine if it does not get a signal in 1 minute. It will go to sleep if you do not issue any commands in 90 seconds. However, you can wake it up. Learn about the different gears and sensors as you build it. Get to build other robots working in groups. Join in our Sumo wrestling and obstacle course events with what you have built.

Advanced Robotics: The Ultimate Experience - PM (7-12years)

In this workshop you'll put your imagination and skills to the challenge. Working in small groups, you'll build different robotic creatures and vehicles. They will be tested for speed, strength and endurance. Tires, motors, gears, wires and controllers are used to move these robots across the floor. After making trial runs, you can modify your designs to increase your robot's level of speed and/or strength, to meet the testing challenge. Your robotic creations will be tested in Sumo battles, tugs-of-war and vehicle distance timings

Society Skateboarding Camps (5-17years)

Skateboarding camps are a great place to get skateboarding lessons, challenge yourself to become a better skateboarder, and learn new tricks. They are also great places to make new friends and build self confidence. Enjoy this awesome sport with a focus on skateboarding safety, fundamentals, technique, as well as balance and coordination. Each session will consist of skateboarding lessons, snack time, game time, and play time. Helmets are required and safety pads are strongly recommended. Parents must sign waiver form with registration. For afternoon extended care, see Summer Kids Club.

Visual Arts

Digital Animation Camp (8-12years)

Today's animators use sophisticated computer programs to create cartoon worlds. But first they have to teach themselves and their computers how to give form to the worlds they envision. Learn digital animation skills that will help with computer drawing, character movement, frame layering, and dialogue matching. In small groups, students will focus more on learning these techniques and complete a short animated film. Bring a flash drive on the last day of camp to take home a copy of your project.
