### Teen Pioneers (12-15years)

Bridge the years between being a camper and being a camp leader with our new Teen Pioneers Camp. Younger teens will develop practical skills and confidence that can help them land summer jobs as juniors and seniors, while still enjoying the pleasures of being a kid right now. Every week features a fun teen field trip and weekly recreational swim days, along with valuable training.

**Babysitting** - Become the ultimate babysitter! Learn the necessary skills to be confident when babysitting and equipped in the event of an emergency. The week will include: Red Cross certification course for babysitting, Red Cross Infant/child/adult CPR and Basic First Aid certification, age appropriate game play, behavior modification and resume building skills.

**Leaders In Training** - Get one step closer to becoming an amazing camp leader! During the week teens will: develop basic leadership skills, receive training in behavior management, risk management, supervision, and basic water safety as well as learning camp songs and skits

**Summer of Service** - Each week collaborate with different City Department staff in Public Safety, Parks and Environmental Services on various community service projects. Learn how a City operates, and earn up to 20 hours of service credits. Campers will have some input into the activities the group will work on.

## Arts & Special Interest

### Digital Animation Camp (7-12years)

Today's animators use sophisticated computer programs to create cartoon worlds. But first they have to teach themselves and their computers how to give form to the worlds they envision. Learn digital animation skills that will help with computer drawing, character movement, frame layering, and dialogue matching. In small groups, students will focus more on learning these techniques and complete a short animated film. Bring a flash drive on the last day of camp to take home a copy of your project.

### Filmmaking Camp (7-12years)

Headed for Hollywood someday? Freshi Films digital filmmaking camp will point you in the right direction. This introductory, hands-on program gives kids everything they need to create a short film in one week. Participants will work together in small groups, planning, acting and shooting the whole movie themselves. Camp concludes with a special screening for parents and friends. Bring a memory stick on the last day of camp to take home your own copy of the movie.

### Stop-Motion Animation Camp (7-12years)

Bring your own characters to life with Freshi Films hands-on animation camp. Older kids experiment with paper cut-outs, action figures, legos and more to learn different animation methods. Then participants work together in small groups to plan, storyboard and shoot their own stop-motion animated film. Younger kids learn to make a character move, using action figures and legos, and shoot a short, funny and action-packed film. Camp concludes with a special screening for parents and friends. Bring a memory stick on the last day of camp to take home your own copy of the movie.

### Visual Arts Mini Camp (5-7years)

This camp is a shorter version of our popular Visual Arts Camp, designed especially for you younger artists. We'll use lots of vibrant paint, clay, oil pastels and other interesting stuff to create our own interpretations of Monet's Garden, Van Gogh's Starry Night and nature's coral reefs. We'll even have a chance to combine a little science with our art when we explore the planets, stars and Northern lights. We'll also see how mathematics and nature join forces to create the patterns in pinecones, leaves, flowers, shells and snowflakes. Bring a smock and a snack. A non-refundable \$30 supply fee will be collected at first class.

**Sorcerers Camp (7-11years)**

You asked for more magic, and presto! Our new Sorcerer's Camp features another full week of easy-to-do magic tricks, but all completely different from Magic Wizards Camp, so enthusiastic young magicians can take either or both camps. Discover how to make an object disappear and 'how to read a mind' through an encouraging, step-by-step method. Develop presentation skills so you can put on your own magic shows. Participants receive a box of magical items, including wand, wizard's hat and a selection of easy-to-perform tricks. Camp concludes with a magic show for parents. Non-refundable supply fee of \$20 is due to instructor at first class meeting.

**Game Design Camp (7-13years)**

Don't just play video games this summer. Play your own video game!  
**Level 1** - Beginning game developers work in pairs to conceive, design and build an original computer game. Everything created for the game is original - characters, the action, background, music and format. Students use creative and critical thinking to complete their game and build teamwork skills by working with a partner.  
**Level 2** - Students who have successfully completed Level 1 learn new game design techniques, including multiple character animation and movement option, platform-style games and multiple game genres. Students animate their characters and lead them through multiple level platform games based on an original game concept designed by the student. Level 2 has a \$20 non-refundable materials fee due to the instructor at first class meeting. Each student will have his or her own computer provided for use in class.

**Sciensational Camps Full-Day/Full-Day Extended Care options**

For the family who needs a full day camp option, Sciensational offers Full-Day and/or Full-Day Extended Care options for all Camp weeks offered this summer! If signing up for one of the Full-Day options, please make sure to send your camper with a bagged lunch, a water bottle and some snacks (Peanut free, please).

**CSI - Crime Scene Investigation (AM)**

You will be the super science sleuths. Have fun learning about forensics, crime scene investigations, and crime lab chemistry as you perform as many as 15 different experiments designed to show you just how those tricky cases are solved. Search for the evidence, gather clues, and discover how science can help solve a mystery. Participants will: Dust for fingerprints, analyze handwriting, test for blood type using simulated blood, examine hair and clothing fibers, practice chemistry to identify mystery substances and much more. Participants will then use their skills to solve crimes of the century.

### Creative Engineering Workshop

Work with an advanced three dimensional construction kit that is yours to keep and take home. Design and build simple or complex models of a vehicle, a robot or buildings. You will also get your own 3-volt geared motor to power up a moveable Radar Surveyor. Learn the many ways you can make your motor run. Hands on is the only way, so prepare to build from directions, and from your own imagination!

### Electronic Lab

30 different projects and experiments are built with your own electronic kit to keep in this hands-on workshop. The Science Electronics Lab will stimulate kids' minds by using easy to understand experiments to increase their knowledge of electronics. Science project ideas will come alive as they build the 30 projects while working with Electronic Circuits. The electronics kit is reusable. Have fun designing your own projects once you've built all 30. Kids can proceed at their own pace. Each participant will keep: an 80 page manual, 1 solderless circuit board, 12 resistors, 2 capacitors, 2 light-emitting diodes, 2 transistors, 1 battery snap, 1 diode, 1 speaker, 1 timer, 1 photocell, 1 rectifier, 1 potentiometer, and 1 switch. Learn the ins and outs of how they work. Kids will be grouped by age.

### Magnetic Levitation for Future Transportation

Build your own "futuristic Maglev" car to race and take home. In 1999 a Japanese five-car maglev train set a record of 345 miles/hour. Yours won't go that fast, but we will have fun building it and learning how it operates. Learn about the relationship between magnetism and electricity. You will also get to build a simple maglev track as well as a cool electromagnet. Learn how motors work, as well as generators. Build and take home the world's simplest motor. Make your own compass and take part in many other magnificent magnetic activities!

### Follow Me Robot

How would you like to build a robot that has four built-in microphones? It will detect the sound source and in turn it will move and turn accordingly. It is your own robot to build and take home. It starts flashing and plays Do-Re-Me. Make it move the way you want it to move. It is so smart. It will move in its own routine if it does not get a signal in 1 minute. It will go to sleep if you do not issue any commands in 90 seconds. However, you can wake it up. Learn about the different gears and sensors as you build it. Get to build other robots working in groups. Join in our Sumo wrestling and obstacle course events with what you have built.

### Hyper Peppy Robotics

Build and take home your own sound activated Hyper Peppy Robot. Clap your hands to get it moving. It has a very sensitive touch/sound sensor. When it comes in contact with an object it will automatically go into reverse and then turn left before embarking on a new course. It's fast! You're able to adjust its sensitivity to sound. You will see, first-hand, the many gears, circuit board, microphone, and its easy to assemble mechanical drive system. The completed project will help build self-confidence. You will also get to build other robots as a part of a small group.

### Model Airplanes - Bridge Building - Electronic Gadgets (AM)

Build your own rubber-powered model airplane. Use your model as a learning tool in aerospace education, or just have fun building a sound airplane that actually flies when assembled. Have fun designing and building model bridges. Join us in our bridge building contest to see which one can hold the most weight. Learn simple engineering skills. Build 6 electronic projects, including a patrol car siren, burglar alarm and morse code transmitter. You will learn how the different electronic components work.

### White Light - Lasers - Galaxies and Then Some (PM)

Children explore science as a fun and exciting process of investigation. Each day we conduct experiments, discover the amazing, and test our own ideas. You will learn about lasers. Dancing, swirling, pulsating laser light will be part of our Laser Light Show. Work with our light blitzer as a laser light flashes to music. We will conduct experiments with our laser pointer plus lenses and mirrors as we have fun and learn. Build and take home your own kaleidoscope, spectroscope, periscope and constellation watcher. Watch the constellations in our room and learn about all the planets as you take our 3-D Adventure into outer space!

## Sports

### National Academy of Athletics Baseball/Softball (7-12years)

The Hit & Run baseball/softball camps offered by the National Academy of Athletics offer beginner to intermediate players the opportunity to build a solid foundation. Players love these camps because each day is filled with fundamental skill progression drills, easy to understand instruction, as well as games and competition. Campers are grouped by age and ability. Bring a baseball glove.

### Skyhawks Baseball Camp (6-12years)

Skyhawks baseball staff teach the fundamentals of fielding, catching, throwing, hitting and base running, all in a fun, positive environment. Specifically designed for beginning and intermediate players, this program teaches athletes new baseball skills along with vital life lessons such as respect, teamwork, and responsibility. All participants receive a t-shirt and a player evaluation. The participant-to-coach ratio is approximately 12:1. Bring appropriate clothing, two snacks, a water bottle, running shoes, a baseball glove and sunscreen.

### Turner Sports Baseball (6-12years)

Turner Sports focuses on the process of playing the game. Drills with scrimmages and fun baseball related games daily. This camp emphasizes the positive experience that playing baseball can bring to a child including the following: teamwork, building confidence, discipline, developing new skills, building new friendships. Turner Sports specializes in first time players by focusing on the building blocks of hitting, fielding, pitching, and running with small groups according to skill level. In addition to the basics, we teach advanced aspects of the game if players are ready and willing. Bring lunch, water bottle, bat, hat and glove, but there will be extra equipment if need be.

### Mike Allen Basketball Camp/Clinic (8-14years)

After playing professional basketball around the world (XBA USBL, and the Harlem Ambassadors Show), Mike Allen brings you a camp that takes kids to new heights filled with lots of fun. Designed for the player who has an interest in playing at the school level or in a local league, this camp focuses on the fundamentals of the game and includes strength and conditioning, and offensive and defensive strategies. In this co-ed camp, boys guard boys and girls guard girls. Participants are divided by age. The final day of camp will end with Fun Tyme Sports Challenges where players can win prizes. Each participant receives an official camper notebook, certificate, and evaluation.

### Martial Sports Fencing Camp (7-14years)

Martial Arts Sport Fencing is a safe form of fencing (foam padded equipment) that is based on traditional techniques similar to Japanese and European Olympic Fencing. Students gain basic proficiency in this lightning quick sport and are introduced to the etiquette, codes of conduct and terminology. Foundations of footwork, stances, timing, offensive and defensive parrying will be covered. Students will participate in games and bouts with classmates. Rigorous training develops mental discipline, coordination and endurance. Tiger uniform (\$50), equipment, and testing are an additional fee. Tiger uniform and safety equipment required after first class and can be purchased from the instructor.
