Camp Crusade (5-12years)

Camp Crusade features fun indoor and outdoor recreational games, arts & crafts and goofy contest, as well as recreational pool play for all camp participants. (Campers will be separated into appropriate age groups for some of our games and activities.)

For campers wanting to improve their swimming abilities, we've added a NEW SWIM LESSON OPTION to the regular day camp for a small additional fee. Camp Crusaders who also register for the additional swim lessons will be pulled out of regular camp for one hour and escorted to and from Washington Park Pool for their 30 minutes each of swim lesson and structured pool play daily.

- Notes: 1) **Must be registered in Camp Crusade to register for the swim lesson option.**
- 2) All participants need to bring a daily lunch, bottled water, two snacks (morning & afternoon) and sunscreen.
- 3) If also registered in the swim lesson option, bring swim suit, towel and a dry change of clothes. JW/AW

School for Faeries (5-15years)

At Madame Amelia's School for Faeries, draw upon the magic within to spread beauty and kindness. Create faerie costumes and transform the classroom into a fanciful place for singing, crafting, composing poetry and journaling. Older girls mentor younger girls and stay late to help prepare the next day's activities. Class concludes with a potluck tea. Each student may invite one guest to tea. Non-refundable materials fee of \$25 is due to instructor at first class meeting. Please bring water to drink and a healthy snack.

Visual Arts Mini Camp (5-7years)

This camp is a shorter version of our popular Visual Arts Camp, designed especially for you younger artists. We'll use lots of vibrant paint, clay, oil pastels and other interesting stuff to create our own interpretations of Monet's Garden, Van Gogh's Starry Night and nature's coral reefs. We'll even have a chance to combine a little science with our art when we explore the planets, stars, and Northern lights. We'll also see how mathematics and nature join forces to create the patterns in pinecones, leaves, flowers, shells, and snowflakes. Bring a smock and a snack. A non-refundable \$30 supply fee will be collected at first class.

Science & Engineering Camps

Extended hours offer only care and are not an extension of camp-related activities.

AWESOME Engineering Camps (7-12 years)

Are you ready to have an AWESOME time? Our Engineering and Construction program will teach you fundamental engineering and construction concepts using Erector educational toys. You will build things you encounter everyday; including bridges, cars, skyscrapers and more! Some of the concepts covered include: Torque vs. Speed, Belt and Pulley Systems, Gravity, Friction, and Truss Systems. In class, you are provided with everything you need to build each project which includes a tool belt, tools and project pieces. This hands-on class will allow you to work together or solve problems while building projects. It's sure to be AWESOME! Bring a bag lunch each day.

Instructor: Awesome Engineering Staff

Location: De Anza Park Bldg.

Automotive Engineering and Design (7-12 years)

Learn fundamental engineering and construction concepts using Erector educational toys. You will build automotive vehicles you see everyday; including cars, motorcycles, bulldozers, dump trucks and more! Some of the concepts covered include: gear systems, gear ratios, and torque vs. speed, belt and pulley systems, gravity and friction.

Sciensational Camps (6-11 years)

Extended hours offer only care and are not an extension of camp-related activities.

With fabulous hand-on activities and take home projects, Sciensational offers children a fabulous summer full of exploration and fun they will never forget! Full-day and Full-day Extended care participants should bring a bag lunch daily. **PLEASE NOTE:** Lunch supervision (12-1pm) is ONLY provided for FULL-day or FULL-DAY EXTENDED CARE participants. Half-day participants are expected to be picked up promptly at 12pm, or dropped off no earlier than 1pm.

Instructor: Staff

Location: De Anza Park Building

Chemical Magic (a.m.): Learn to make batteries from fruits or potatoes, view prepared slides on microscopes, make glob from glue, enjoy collections of rocks and learn the names of all three kinds! We'll also make dirty pennies clean and clean pennies green!

Magical Mystery (p.m.): Join our Magical Mystery Tour as we share the escapades of Harry and his friends. You'll make an edible wand, watch a mirage appear and play quidditch. We're awaiting your arrival!

Class #	Age	Dates	Day	Time	Fee (Res/NR)

Refund or transfer requests for summer camps must be received at least 4 weeks before the first day of camp.

30 Electronic Gadgets (a.m.): Everything around us seems to be electronic! During the week you'll create thirty electronic gadgets including a wake up alarm, police siren, automatic nightlight, a sound replication of a motorcycle engine and 26 more! The entire kit of creations is yours to take home.

Crime Scene Investigation (p.m.): Become a Super Science Sleuth as you learn about forensic practices through an assortment of fun crime solving activities. You'll dust for fingerprints, analyze handwriting, test for blood type using simulated blood, examine hair and clothing fibers, and use chemistry to identify mystery substances.

Build your own Hovercraft (a.m.): Build and keep an air powered Hover Craft. We give you the tools and supplies- You make it defy gravity. Once it's up and moving, then using your creativity, control its direction. Also build an Egg Drop Car. Do you think you can protect your egg? You will learn about Laws of Motion, Energy, Air Pressure, Friction, Lift, Speed and Acceleration. Have fun the Sciensational hands on way!

Maglev Cars (p.m.): Discover how magnetism and electricity are related, as you build your own futuristic Maglev car to race and take home! You'll also build an awesome Maglev track, a cool electromagnet, compass and more.

TechKnowHow Camps (5-14years)

Extended hours offer only care and are not an extension of camp-related activities.

Classes focus on having students master technology tools and science principles through engaging projects which simulate professional-level experiences. Bring a bag lunch, snacks & drinks each day. During computer time, each student works on a snacker (1:1 computer-student ratio).

Instructor: TechKnowHow Staff
Location: Raynor Park Building

NXT® Robotics and Mobile Game Design (10-14years)

Explore two important technology areas – robotics and game development for mobile devices. Use LEGO's NXT robotics line to construct bots and vehicles which you program using icon-based software. Then, take part in a team project to build and program a bot to complete First LEGO League®-type missions. In the afternoon, learn how to create games which can be played on any mobile device with Internet connection, including iPhone, iPad and Android devices. Student games will be uploaded to a server for access through web-connected mobile devices.

Motor Madness: LEGO® Building with an

Introduction to NXT® Robotics (6-9years)

Have fun building LEGO® creations which you power with a motor and battery pack! Projects include a speedy car, a moving airplane with propeller, street sweeper, and spinning amusement park ride. In the afternoon, students explore robotics as they build with a partner using the Mindstorms NXT® microcomputer brick and sensors. There is no programming in this class – students' robots use pre-created programs to perform actions. Students take home a camp T-shirt and LEGO item.

LEGO® City Builders & Cool Construction with K'NEX®

(5-7years)

Have fun building a working LEGO® city! Design structures such as a fire station, school, airport, bridges, and houses. Create interesting vehicles and use LEGO elements such as battery boxes and gears to make light, sound and motion. In the afternoon, students build K'NEX® projects which teach how motors and gears work. Students take home a camp T-shirt and LEGO item.

Play-Well TEKologies (5-12years)

Instructor: PlayWell Tek
Location: Raynor Park Bldg

Pre-Engineering

Let your imagination run wild with over 100,000 pieces of LEGO®! Build engineer-designed projects such as boats, bridges, mazes, and motorized cars, and use special pieces to create your own unique designs. Explore the endless creative possibilities of the LEGO® building system with the guidance of an experienced Play-Well instructor. This is an ideal way to prepare young builders for the challenge of Engineering FUNDamentals. (ages 5-6)

Class #	Age	Dates	Day	Time	Fee (Res/NR)
721360.BA	5-6yrs	6/18-6/22	M-F	8:30am-11:30am	\$180/\$225

Engineering FUNDamentals

Power up your engineering skills with Play-Well TEKologies and over 100,000 pieces of LEGO®! Apply real-world concepts in physics, engineering, and architecture through engineer-designed projects such as arch bridges, skyscrapers, motorized cars, and the Battletrack! Design and build as never before, and explore your craziest ideas in a supportive environment. An experienced instructor will challenge new and returning students to engineer at the next level. (ages 7-9)

Star Fighter Engineering

Young Star Fighters will explore worlds far, far away and engineering principles right in front of them. Defeat the Empire by designing and refining fighter ships, robots, and settlements on far-flung edges of the galaxy. Imagination and engineering combine to create motorized and architectural projects such as energy catapults, shield generators and defense turrets. A new offering of original designs for young pilots from Play-Well TEKologies. (ages 5-6)

Star Fighter Masters

The Force is strong in this class. Build complex machines and structures based on the best designs from a galaxy far, far away. Projects include fighter ships, Walkers, Pod Racers, Destroyers, Cloud Cities, settlements, and fortresses. Play-Well's Space Pilot instructors reinforce key engineering concepts such as geartrains, worm drives, pneumatics, eccentric motion and more as students tap into the powerful forces of imagination and engineering. (ages 7-9)

721360.CP	7-9yrs	6/25-6/29	M-F	12:30pm-3:30pm	\$180/\$225

Engineering Challenge

You will work cooperatively with your teammates to complete the mission. Achieving mission goals will necessitate construction of trucks, bridges, elevators, cranes, bulldozers, conveyor belts, and other motorized and alternatively powered contraptions. Instruction will be provided by staff. Familiarity with the LEGO® Technic building system is desirable and can be obtained by attending Engineering FUNdamentals camp. (ages 5-6)

Green Engineering

Design and build machines powered by alternative energy sources. Race solar cars, build a wind-powered electrical generation facility, enter the human powered vehicle competition, and invent a machine powered by stored elastic strain energy. Instruction will be provided by staff, but familiarity with LEGO® Technic is desirable. (ages 7-9)

Flight Club (non-LEGO®)

Become a future aerospace engineer! Build and experiment with paper airplanes, helicopters, parachutes, rockets, and a wide variety of aerospace designs. Learn about propulsion, air foils, terminal velocity, gyroscopic forces, and other aeronautic concepts. An experienced Flight Club instructor helps you acquire aerospace engineering skills that last a lifetime. Take home your creations from this interactive and educational class about having fun with flight. (ages 7-10)

Sports Camps

Please bring sunblock, sun protective clothing (T-shirt and hat) to limit sun exposure, water, snacks (or lunch and a snack for programs over 4 hours; nothing that needs refrigeration), gym or running shoes, appropriate equipment marked with your name, a SMILE and any other items indicated to all Sports Camps.

Skyhawks Baseball Camp (5-12years)

Skyhawks Sports Baseball is designed to teach and refine the fundamental skills of the game — fielding, catching, throwing, hitting, and base running — while infusing each athlete with the exciting spirit of the game. Each athlete will learn basic skills in exercises tailored to individuals through tee hitting, soft toss, and live pitching. All participants receive a T-shirt and a merit award. The participant-to-coach ratio is approximately 10:1. Participants should wear appropriate clothing and running shoes. Bring a lunch and snack, a bottle of water, a baseball glove, a helmet and sunscreen.

Instructor: Skyhawks Sports Academy

Mike Allen's Basketball Camp (7-14years)

This is not your ordinary Summer Basketball Camp. After playing professional basketball around the world (XBA USBL, and the Harlem Ambassadors Show), Mike Allen brings you a camp that has brought kids to new heights filled with lots of fun. It is designed for the player who has an interest in playing at the school level or in a local league. We will focus on the fundamentals of the game and will include both strength and conditioning, as well as offensive and defensive strategies. In this co-ed camp, boys will guard boys and girls will guard girls, and participants will be divided by age. The final day of camp will end with Fun Tyme Sports Challenges where players can win prizes. Each participant will receive an official camper notebook, certificate and evaluation.
