Message I'm interested in knowing why the Mary Avenue bike lane decision has been pushed back again (to Oct 22). I can't find any explanation on the BPAC or Council sites.

Subject Re: Mary Avenue bike lanes?
Message Dear Matt Whalley,

Thank you for your inquiry regarding the Mary Avenue bike lanes issue. This report was rescheduled due to a series of publishing errors by the local newspaper for the environmental document. The environmental document must be noticed for availability for a certain period of time, and any comments received must be responded to. Because the noticing did not occur, it has pushed the hearing schedule back.

Please contact me with any further questions or comments at (408 0730-7415.

Thank you,
Jack Witthaus

Regarding Location	Intersection of Matilda and Java/Lockheed Martin		

Message The pedestrian crossing signal across Matilda on the north side of the intersection has failed on. At every cycle, it indicates crossing whether there is a pedestrian or not. It limits the duty cycle for Matilda through traffic and extends it for cross traffic.
