GENERAL NOTES

- The Owner, the Owner's Representative, and the Owner's consultants will assume no responsibility for variances between actual existing conditions and conditions depicted as existing on the drawings. The Contractor shall inspect the site and the buildings, and shall verify to his own satisfaction the conditions thereof. If conditions in the field are at variance with conditions shown on the drawings and materially affect the Contractor's ability to execute the Work, he shall immediately inform the Owner's Representative.
- The drawings and notes depicting existing conditions are intended only as a means of providing the Contractor a general sense of existing site and building conditions. The Owner, the Owner's Representative, and the Owner's consultants will assume no responsibility for variances between conditions shown on the drawings as existing and actual field conditions. The Contractor shall assume that there may be minor differences between conditions shown on the drawings as existing and actual field conditions. The Owner will not consider requests for additional monies from the Contractor due to minor discrepancies between conditions shown on the drawings as existing and actual field conditions. If major differences between conditions shown on the drawings as existing and actual field conditions are encountered by the Contractor, the Contractor shall immediately inform the Owner's Representative and shall stop work in the area where the Contractor has encountered major differences between conditions shown on the drawings as existing and actual field conditions. The Owner's Representative will provide instructions for proceeding in the area where the Contractor has encountered major differences between conditions shown on the drawings as existing and actual field conditions in a timely manner. If the Contractor is required to stop work in an area due to the Contractor encountering major differences between conditions shown on the drawings as existing and actual field conditions he shall proceed with all other work items as required by the Contract Documents.
- Perform all Work in compliance with all applicable Federal, State, regional, and local statutes, laws, regulations, rules, and ordinances. Comply with all current applicable codes and regulations including but not limited to the latest edition of the Uniform Building Code, OSHA, the latest applicable sections of the State of California Code of Regulations, other public agency regulations, and any amendments by other governing jurisdictions.
- All work shall conform to applicable referenced standards as enumerated in the specifications.
