

CITY OF SUNNYVALE
STANDARD DETAILS
FOR PUBLIC WORKS CONSTRUCTION
2006 EDITION

Revised July 2016

Department of Public Works
City of Sunnyvale
P.O. Box 3707
Sunnyvale, CA 94088-3707

Telephone: (408) 730-7415
FAX: (408) 730-7286

TABLE OF CONTENTS

<u>Description</u>	<u>Drawing No.</u>
SECTION A — STORM DRAINAGE AND SANITARY SEWERS	
Type I — Concentric Manhole — 8" to 33" Pipe	1A
Type II — Concentric Manhole — 36" to 48" Pipe	2A
Type III — Concentric Manhole — 51" Pipe and Larger	3A
Type IV — Concentric Drop Manhole	4A
Type VI — Industrial Waste Manhole — 4" to 12" Pipe	6A
Type VII — Manhole, Pressurized — (For New Installations)	7A
Type VIII — Manhole, Pressurized — (For Existing Installations)	8A
Hinged Manhole Rim & Cover	9A
24" Curb Drop Inlet	10A
24" Flat Grate Drop Inlet	11A
36" Curb Drop Inlet	12A
Type GO Inlet	13A
Bicycle Proof Grate Detail	13A-1
Standard Connection to Manhole Walls, and Reinforced Concrete Pipe	14A
Sewer Lateral	15A
Typical Trench Detail	16A-1
Typical Trench Surface Restoration (1 of 2)	16A-2
Typical Trench Surface Restoration (2 of 2)	16A-3
Typical Multiple Utility Conduit Trench Section	16A-4
Typical Narrow Trench/Rockwheel Utility Conduit Trench Detail	16A-5
SECTION B — WATER	
Water Valve Box Installation	1B
Fire Hydrant Assembly	2B
Hydrant Location Information	2B-2
Standard Blow Off	3B
Standard Air-Relief Valves 1" & 2"	3B-1
Meter Box and Vault Specifications Up to 2" Meters	4B
Meter Box and Vault Specifications Up to 2" Meters	4B-1
Fire Service Loop with Separate Domestic Service	5B
Fire Service Loop with Fire Pump and Tank	6B
Fire and Domestic Service from a Single Connection	8B
Fire and Domestic Combined Service Loop System	10B
Water Service Installation, 3" through 10" Meters	12B
Dual Meters for 3" or Larger Meters	12B-1
Two Meter Manifold Service (1" Service Line for two 5/8" Meters)	13B
Manifold Service for 3 or more Meters – up to 1" Meter	14B
Manifold Service 3 or more Meters (Alternative Pipe Arrangement)	14B-1
Installation of Cut-In Tee and Gate Valve	15B
Thrust Block for Horizontal Bends	16B
Water Line Vertical Offset	17B

<u>Description</u>	<u>Drawing No.</u>
Water Line Vertical Offset	17B-1
Standard Blow Off	17B-2
Backflow Prevention Device – Size up to 2”	18B
Recycled Water Backflow Prevention Device – Size up to 2”	18B-1
Backflow Prevention Device Enclosure	19B
Vertical Orientation Domestic RP Assembly Backflow Prevention Device Size 3” and Larger	20B
Horizontal Orientation Domestic RP Assembly Backflow Prevention Device Size 3” and Larger	20B-1
Fire Service – Reduced Pressure Detector Assembly (RPDA)	21B
Installation of Backflow Prevention Device	22B
Thrust Blocks	23B
Thrust Blocks in Bay Mud — 1 of 2	24B
Thrust Blocks in Bay Mud — 2 of 2	25B
Exothermic Welding Detail – 1	26B-1
Exothermic Welding Detail – 2	26B-2
Insulating Flange Detail	27B
Flanged Steel Insulating Joint Installation Details – 1	27B-1
Flanged Fitting Insulating Joints Installation Details – 2	27B-2
Pipe Casing Detail	28B
Bypass Pressure Reducing Valve Vault Detail	29B
Sample Station Detail	30B-1
Sample Station Location	30B-2
Main Connection Details	31B
Tracer Wire Installation	32B

SECTION C — STREETS

2 - Lane Street Sections	1C
4 & 6 Lane Street Sections	2C
Cul De Sac Details	3C
Residential Driveway Approach in Monolithic Curb, Gutter and Sidewalk. (1 of 2)	5C-1
Residential Driveway Approach in Monolithic Curb, Gutter and Sidewalk. (2 of 2)	5C-2
Residential Driveway Approach in Non-Monolithic Curb, Gutter and Sidewalk, with Park-Strip Less Than 2’-0” Wide.	5C-3
Residential Driveway Approach in Non Monolithic Curb, Gutter and Sidewalk, with Park-Strip Width Greater Than 2’-0” But Less Than 3’-0”.	5C-4
Residential Driveway Approach in Non Monolithic Curb, Gutter and Sidewalk, with Park-Strip Greater Than 3’-0” Wide	5C-5
Residential Driveway Approach in Detached 6’ or 8’ Sidewalk With 4’ Park-Strip	5C-6
Residential Driveway Approach in Attached 10’ or 12’ Sidewalk With 4’x5’ Treewell	5C-7
Commercial and Industrial Driveway Approach in Monolithic Curb, Gutter and Sidewalk, Less Than 8’-6” Wide	6C-1
Commercial and Industrial Driveway Approach in Monolithic Curb, Gutter	

<u>Description</u>	<u>Drawing No.</u>
and Sidewalk, Greater Than 8'-6" Wide.	6C-2
Commercial and Industrial Driveway — Sidewalk Ramp Type	6C-3
Commercial and Industrial Driveway Approach in Attached 10' or 12' Sidewalk with 4'x5' Treewell	6C-4
Curb, Gutter and Sidewalk Section	9C
Detached 6-Foot Sidewalk with 4-Foot Park-Strip	9C-1
Detached 6-Foot Sidewalk with 4-Foot Park-Strip	9C-1A
Attached 10-Foot Sidewalk with 4'x5' Treewell	9C-2
Attached 10-Foot Sidewalk with 4'x5' Treewell	9C-2A
Detached 8-Foot Sidewalk with 4-Foot Park-Strip	9C-3
Detached 8-Foot Sidewalk with 4-Foot Park-Strip	9C-3A
Attached 12-Foot Sidewalk with 4'x5' Treewell	9C-4
Attached 12-Foot Sidewalk with 4'x5' Treewell	9C-4A
New Sidewalk – Maintain Existing Tree	9C-5
New Sidewalk – Maintain Existing Tree	9C-5A
Sidewalk Transition Detail	10C
Sidewalk Transition Around Existing Electroliers or Fire Hydrant	11C
Sidewalk Intersection	12C
Perpendicular Curb Ramp, Extra Wide Sidewalk	13C-1
Parallel Curb Ramp, Monolithic Sidewalk	13C-2
Combined Parallel/Perpendicular Curb Ramp, Extra-Wide Sidewalk	13C-3
Perpendicular Curb Ramp, Separated Sidewalk	13C-4
Combined Parallel/Perpendicular Curb Ramp, Separated Sidewalk	13C-5
Combined Parallel/Perpendicular Curb Ramps Separated Sidewalk with Physical Obstruction	13C-6
Curbs: Types I-6, I-8, II (24" Gutter Pan), III-6, III-8, AC Dike and Traffic Bars	15C
Curb Type II (12" Gutter Pan) and Gutter Transition	15C-1
Gutter Transition (Detailed Sheet Not Used)	15C-2
Valley Gutter at Street Intersection	16C
Type IV-6 and IV-8 Deep Vertical Curb	17C
Street Monument and Monument Box	21C
Temporary Dead End Street	22C
 SECTION D — ELECTROLIERS AND ELECTRICAL	
Electrolier Foundation	1D-1
Electrolier Poles	1D-2
Electrolier and Conduit Installation – Sheet 1 of 2	2D-1
Electrolier and Conduit Installation – Sheet 2 of 2	2D-2
Electrolier and Conduit Location — (Subdivisions Served by Underground PG&E Power Distribution System)	3D
Electrolier and Conduit Location in Median Islands	5D
 SECTION E — SIGNS, STRIPING AND CHANNELIZATION	
Typical Hydrant Marker Location	2E-1

SOP for Right Lane and Bike Lane Closures	3E-2
R81 Sign Detail	4E-1
<u>Description</u>	<u>Drawing No.</u>
Combination R26/R81 Sign	4E-2
G93 Sign Detail	4E-3
Combination R26/G93 Sign	4E-4
Street Name Signs	5E
Pavement Legends: Speed Advisory	8E
Fire Access, No Parking in Driveway	11E
 SECTION F — LANDSCAPING	
Pop-Up Rotor Head	3F
Quick Coupler Valve	4F
Gate Valve — Irrigation System	7F
Satellite Assembly	8F
Irrigation Controller Pedestal Type	8F-2
Irrigation Controller Wall Mount Type	8F-3
Irrigation Controller AC Wiring Diagram	8F-4
Irrigation Flow Sensor Installation	8F-5
Irrigation Control Antenna Installation	8F-6
Ground Cover Planting	9F
4' X 5' Tree Well	12F-1
Section of 4' X 5' Tree Well	12F-2
Root Control Barrier Installation at Sidewalk	13F
Root Control Barrier Installation at Curb	14F
Median Cobblestone Paving	15F
Median Architectural Pavers	16F-1
 SECTION G — MISCELLANEOUS	
Project Information Sign	1G
 SECTION RD — RECYCLED WATER	
Recycled Water Labels – 1	RW-1A
Recycled Water Labels – 2	RW-1B
Recycled Water Labels – 3	RW-1C
Recycled Water Separation Requirements – 1	RW-2A
Recycled Water Separation Requirements – 2	RW-2B
Recycled Water Design Drawings General Notes – 1	RW-3A
Recycled Water Design Drawings General Notes – 2	RW-3B
Installation of Recycled Water Service Lines	RW-4
Typical Truck and Water Supply Systems	RW-5
Dwarf Hydrant	RW-6
