

City of Sunnyvale PUBLIC OUTREACH MEETING

Join the Discussion:

- **Habitat and Wildlife Assessment for Constructing Park Enhancements at the Landfill and a Facility for Animal Assisted Happiness at Baylands Park**
- **Burrowing Owl Habitat Enhancement Opportunities**

The Sunnyvale Landfill, located near the SMaRT Station® at Borregas Avenue and Caribbean Drive, is open to the public for activities like hiking, bicycling and birding. The City is exploring the options of installing shade structures, benches, water fountains and improving trails. The City is also looking into providing a location east of the landfill, at Baylands Park, for Animal Assisted Happiness to provide therapeutic animal interaction services to children in need. Please join the discussion with City staff and consultants on preliminary findings regarding the habitat and wildlife at these two areas. There will also be a discussion on Burrowing Owl habitat and opportunities for enhancement.

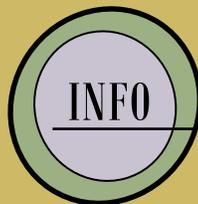

Attend this public outreach meeting for more information on these items.
