I. **INTRODUCTION AND PURPOSE**

The City of Sunnyvale is seeking proposals from qualified individuals or organizations interested in entering into a license agreement to provide the management, operations and maintenance for each of two golf course restaurants located at Sunnyvale Golf Course, 605 Macara Avenue (see Attachment B), Sunnyvale, California, and Sunken Gardens Golf Course, 1010 S. Wolfe Road (see Attachment B), Sunnyvale California, commencing June, 2015. The City is seeking to license each restaurant separately; however, consideration will be given to one entity being awarded both license agreements.

II. **GOALS AND OBJECTIVES**

The City of Sunnyvale is well known for excellence in customer service and fiscal responsibility. The City seeks a restaurant operator(s) who shares these essential values and who will incorporate them into the public restaurants at the City’s two golf facilities.

The City’s specific objectives in selecting a restaurant operator(s) are noted below:

- **A.** Enter into a business relationship with an effective, experienced and qualified entity to operate the restaurants. (The City may enter into an agreement with one provider for both locations or with two different providers.)
- **B.** Manage the restaurants as a revenue generating service and provide a growing financial return to the City.
- **C.** Ensure provision of quality food services, including (in no priority order):
  1. Full service menus and hours of operation at both sites including breakfast, lunch and dinner. (605 Macara Avenue location includes a small concession stand located on the course.).
  2. Full service bars at both locations.
  3. Provide facilities and food service/ catering at both locations for meetings, banquets and weddings.
- **D.** Timely and responsive customer service.
- **E.** Establish and maintain positive relationships with local businesses, community groups, course tournament groups, existing Sunnyvale golf clubs and leagues, charitable organizations, and the community at large.
- **F.** Promotion of the Sunnyvale Golf Courses and golf in Sunnyvale.
- **G.** Verifiable, full disclosure of financial and program data.
- **H.** Provide a capital investment for restaurant facility improvements.
I. Provide for the day-to-day custodial service and basic maintenance of buildings and restaurant facilities.

III. BACKGROUND

A. City of Sunnyvale Recreation Services – The City offers a full-range of recreation program opportunities and services. Recreation programs include sports, aquatics, golf, tennis and other health and wellness activities. Golf in Sunnyvale is an integral component to the City’s array of recreational facilities and services and is offered year-round.

B. History of Sunnyvale’s Golf Courses – Sunnyvale Golf Course was dedicated in 1968 and is a 18 hole, Par 70, 6,255 yard course. Sunken Gardens Golf Course was dedicated in 1973 and is a 9 hole, Par 29. 1,502 yard course. They are well maintained public courses and both operations (course maintenance) and services (Pro Shop) programs are run internally by the City. Last year approximately 52,000 rounds of golf were played at Sunken Gardens GC and 73,000 rounds at Sunnyvale GC.

C. Program and Financial Data – Five years of program financial data is attached (Attachment C, Annual Revenue Summary 2008-2012).

D. Issues To Be Considered by Proposer During Proposal Preparation

1. Previously, both locations were operated by one company under a license agreement that began in 1999 and was scheduled to terminate in 2019. However, the license agreement was terminated in 2012 due to unforeseen circumstances, necessitating the search for a new operator(s). In April 2013, a new company was awarded a 15-year license to again operate both facilities. This license was terminated in 2015 for failure to fulfill the requirements of the agreement.

2. All kitchen and restaurant equipment including appliances and furniture that are not part of the building infrastructure are to be provided by the operator. Examples of items considered to be part of the infrastructure are walk-in refrigerator, counters that are affixed to the building, ventilation and fire suppression systems, all plumbing and fixtures, all electrical and fixtures, and HVAC.

3. The status of the liquor licenses for both sites is undetermined. Although there is a possibility that they may be transferred to the new operator(s) at an undetermined cost, new licenses may need to be obtained. Proposers will be notified as soon as a final status is determined.
