Chris Moylan, Sunnyvale City Council  
Chris Elias, Santa Clara Valley Water District

1. General Discussion

The Working Team members held a general discussion in the parking lot of a commercial center at Homestead Road and Grant Road. Chair Tom Means stated that the next meeting would be held at such time that the outcome of efforts to secure grant funding were known.

Chris Elias summarized how the field review would be conducted. Three areas would be toured. He noted that the creek was steelhead habitat and was therefore sensitive. The meeting then adjourned to conduct the field review in the Homestead Road area.

Respectfully Submitted,

---

Jack Witthaus  
Transportation and Traffic Manager  
City of Sunnyvale
