

STEVENS CREEK TRAIL JOINT CITIES FEASIBILITY STUDY

Citizens Working Group INVITATION FOR SUPPLEMENTAL APPLICATIONS

The cities of Sunnyvale, Mountain View, Los Altos, and Cupertino invite interested citizens to apply for a Citizens Working Group to assist agency staff, a consultant team, and policy representatives in preparing a feasibility study of trail development in the Stevens Creek Corridor with the intent of connecting completed or planned trail segments in Cupertino and Mountain View. At this time the cities are looking to augment current membership with one additional member from each city.

The purpose of this project is to provide a comprehensive Study to the City Councils of Sunnyvale, Cupertino, Los Altos and Mountain View that will assist them in determining next steps in narrowing feasible alternatives and selecting and coordinating a preferred alternative for completion of a multi-use trail in the Stevens Creek Corridor. The Study will inventory existing technical studies, policies, and plans; identify community opinions and consider and assess opportunities and conflicts presented by community sentiment; identify a broad range of trail alternatives based on existing plans/policies/studies, community input, geographic/physical/biological and institutional conditions and opportunities; and accommodation of the multi-use objectives. The project will conduct certain technical engineering feasibility analysis, scientific assessments, and public vetting of identified alternatives. The Study will provide order of magnitude cost estimates for alternatives and evaluate outside grant funding opportunities that each city could consider in advancing their project to the environmental, design, and construction phases.

The role of the Citizens Working Group is to serve as an extension of agency staff and the consultant team in preparing study work products for consideration by the public and a multi-agency Stevens Creek Trail Joint Cities Working Team. The Citizens Working Group was formed in October, 2012 with two members from each city. The cities are now seeking one additional member from each city.

This is a roll up your sleeves, technically focused effort for which the four cities seek a concentrated level of citizen input to augment a broader public outreach effort that will take place. Meetings of the Citizens Working Group are working sessions with agency staff and the consultant team. The Group may also serve as support for public outreach meetings, Working Team meetings, and city Board, Commission and Council meetings. New members to the Working Group will require an approximate six month commitment averaging one-two meetings per month.

Please review and complete the applications materials and submit to the City of Sunnyvale Department of Public Works no later than June 7, 2013 at 5:00 P.M.
