

Help Select New LED Lights

The map below shows the general locations of the pilot areas. A sample of the survey is also shown below so you can get a better sense of the questions to expect. Follow the directions below to provide your input. Visit any of the pilot locations listed on the map, then take one online survey per location visited. The short survey will ask you questions about visibility, brightness, aesthetic appeal and lighting levels between the existing street lights and the new LED lights. The City will collect feedback through Friday, January 30, 2015. If you have any questions, contact Carmen Talavera, P.E., Senior Transportation Engineer, at (408) 730-7522 or ctalavera@sunnyvale.ca.gov.

Directions to Participate in the Survey:

To participate, click on the map below to access the interactive map. Once there, you will be able to zoom in to the exact locations of the LED street lights. Click on the pilot location of your choice and a text box will appear. Then, click on the “More Info” link in the text box to access the online survey or click on [Survey](#), to access the survey directly.
