Fees are payable at the time of submission of the application, or, in the event an Environmental Impact Report is required, at such time as it is determined an Environmental Impact Report is necessary, or in the event a specialized environmental study is required, at such time as it is determined necessary. In the event the City retains a consultant to assist in preparation of the EIR, the applicant shall deposit an amount to be determined by the Director of Community Development based upon that official's estimate of the cost of preparation.

If the costs of preparation exceed the amount of the above deposit, the Director shall notify the applicant who shall, within five days of such notice, deposit additional amounts necessary to cover costs of preparation. If costs of preparation are less than the amount deposited, any amounts remaining upon certification of the EIR shall be refunded to the applicant. Any applicant who desires to proceed directly to the preparation of a draft EIR may do so without the payment of a fee for review and initial assessment upon payment of the fee for preparation costs, review, and required filings for an EIR.

The fee for copies of documents prepared pursuant to this resolution shall be the standard fee charged by the City for copies of like documents, provided that no fee shall be charged another unit of government required to review any document requested by it.

The fee or fees set hereby shall be in addition to any other fee required by law.

Postage charges will be added if documents are mailed.

<u>SECTION 8.03 WATER AND SEWER CONNECTION FEES</u>	<u>Fiscal Year</u> <u>2005/2006</u>	<u>Charge</u> <u>Code</u>	<u>Object Level</u> <u>3 & 4</u>	<u>Title</u> <u>(Obj. Lvl. 3)</u>	<u>Title</u> <u>(Obj. Lvl. 4)</u>
--	--	--	---	--	--

Pursuant to Section 66001 of the Government Code, the City Council hereby determines:

- (1) The purpose of the water and sewer connection charges is to assure payment by developers of their pro rata share of the escalated cost of the City's water system and wastewater treatment plant.
- (2) The charge will be used to reimburse the City for the owner or developer's fair share of the use of the water system and the treatment plant.
- (3) There is a reasonable relationship between the use of the fees, the need for a water system, the need for a wastewater treatment plant, and the types of development projects upon which the fee is imposed. All development projects create varying needs for the consumption of water which cannot be fulfilled unless the project is connected to the municipal water system to assure an adequate supply of water to each project, and all development projects generate sewage and create the need for disposal and treatment at a wastewater treatment plant. The degree to which each project is charged is based upon factors related to degree of potential usage, such as type and size of projects and number of units and calculations of the escalated cost of the City's wastewater treatment plant, adjusted for inflation; the current capacity of the plant; the cost of treatment per equivalent single-family dwelling unit; and the estimated daily discharge for each facility to be connected to the wastewater treatment system, taking into account proportionate average daily discharge of sewage, total organic carbon, suspended solids, and ammonia nitrogen.

The fees or charges shall be collected from the owner or developer of property either (1) prior to approval of the original connection of the property to the water or sanitary sewer system, or a redevelopment with incremental impact, or (2) in the event the uses being made of the property presently connected to the system are enlarged, added to, or further structures are constructed on the property.
