NOTICE OF PUBLIC HEARING

PROPOSED RATE INCREASES FOR FISCAL YEAR 2016/17 WATER, WASTEWATER, SOLID WASTE AND RECYCLING SERVICES

The Sunnyvale City Council will hold a public hearing regarding proposed increases to utility rates for City provided water, wastewater, solid waste and recycling services on **Tuesday, June 21, 2016, at 7 p.m. in the City Council Chambers located at 456 W. Olive Avenue in Sunnyvale.**

PROPOSED RATE INCREASES

Utility costs will vary based on actual use or subscription level, however, with the proposed rates, a typical monthly single family residential water, wastewater (sewer), and solid waste (garbage) utility bill will increase by 5.7 percent (equal to \$8.14 per month or \$97.68 per year). Individual utility rates may vary. However as a whole the proposed rate increases for a typical single-family customer are:

Water (assumed use of 12 ccf/month and 5/8" service charge) –	\$3.42
Wastewater (standard monthly charge) –	\$3.18
Solid Waste and Recycling (65-gallon garbage cart) –	<u>\$1.54</u>
	\$8.14

A proposed rate schedule is provided on the following pages; comparisons between Sunnyvale's rates and those of surrounding communities, and a 20-year rate projection for each utility are available in the City Clerk's Office and on the City's website (www.sunnyvale.ca.gov) or by calling (408) 730-7400, TDD (408) 730-7501.

GENERAL INFORMATION REGARDING RATE INCREASES

Sunnyvale's rates for utility services are based entirely on the City's costs for operating and maintaining its utility systems and services. No tax revenues are used to cover the cost of services. Each year, as part of the City's budgeting process, the City Council considers adjustments to utility rates. This review also includes projections of future rate adjustments needed over the next 20 years to ensure the sound financial condition of the City's utilities. This year, the overall change in water, wastewater, and solid waste and recycling costs is higher than projected in last year's budget.

Water Rate Increases

Water rates pay for the safe and reliable delivery of water to all Sunnyvale residences and businesses. All water customers are billed a flat service charge based on the size of the water meter; all water consumed is billed per unit of water (\$/ccf¹), according to the rate table. The overall increase needed in revenue for the water utility is 25%; individual rates may not increase by 25% and will vary by level of service and customer class. The majority of the cost (approximately 60%) to operate the water utility is to purchase water. The San Francisco Public Utilities Commission (Hetch Hetchy) and the Santa Clara Valley Water District have announced rate increases up to 8% and 19.9% respectively. Additionally, due to the drought, water sales have declined more than projected, resulting in lower revenue to cover operating costs.

The City completed a water cost of service rate study, which recalibrates rates to reflect the current costs of providing water service to specific customer classes. The proposed rates include modifications to the City's pricing structure to more closely reflect the cost of providing service to each customer class. The proposed pricing structure shifts more of the cost from variable water consumption charges to the fixed service charge to more

¹ One ccf is equal to one hundred cubic feet of water, or 748 gallons.

closely reflect the cost of providing water service. The proposed pricing structure shifts more of the cost from variable water consumption charges to the fixed service charge. Additionally, in response to recent court decisions regarding water rates, these modifications include a single-tier or two-tier pricing structure, which will have a varying effect on different customer classes.

In addition to the increasing cost of water, the City's water system is aging, with some portions of the system exceeding 50 years in age. Over the next twenty years, it is projected that more than \$100 million will be needed to replace water pipe, well and tank infrastructure.

The proposed water rate increase is projected to collect enough revenue to maintain the water fund in a sustainable financial position. However, even with the recent wet winter, the state continues to be in a drought causing increased volatility in the rates charged by the City's wholesale water suppliers. Therefore, a pass-through provision is proposed in order to recover any mid-year increase in wholesale water rates.

The formula to be used to calculate the pass-through adjustments, if needed, is as follows: Total expected cost increase for wholesale water purchases through the fiscal year end divided by the total budgeted expenditures for the purchase of wholesale water for the remainder of the fiscal year. The percentage increase determined by this calculation will be applied to utility bills for each unit of water used for the balance of the fiscal year (ending June 30, 2017).

Wastewater Rate Increases

Wastewater rates pay for the collection and treatment of wastewater from all residences and businesses in Sunnyvale. The proposed increase for the upcoming fiscal year is 8% for wastewater service. The proposed increase reflects needed improvements to the City's aging wastewater collection, treatment infrastructure and increases in operating and regulatory compliance costs. Specifically, the City has begun a significant effort to rehabilitate its aging wastewater treatment plant. This project, which is anticipated to cost approximately \$450 million, will be phased in over fifteen to twenty years.

Solid Waste and Recycling Rates

Solid waste and recycling rates pay for weekly removal, processing, transfer and disposal of solid waste and recyclables from all Sunnyvale residences and businesses. The proposed rate increase for solid waste and recycling services is 3.5%. Increases in rates are being driven primarily by increasing collection and program costs as the City implements its Zero Waste Strategic Plan and responds to state mandates to increase diversion of food waste and other materials from landfill disposal.

Additional details regarding factors influencing rate changes will be available in the 2016/17 Utility Rate Report to Council. This report will be available in the City Clerk's Office and on the City's website (www.sunnyvale.ca.gov).

PROTEST PROCESS

If you wish to protest the proposed service rate increases, the City must receive your *written and signed* protest prior to the close of the public hearing on June 21, 2016. As required by California Proposition 218, should the City Council receive written protests from a majority of customers, the proposed rates will not become effective and the current rates will remain in place. Mail or deliver written protests to:

Attention: Utility Rate Protest
City of Sunnyvale, Department of Finance
650 W. Olive Avenue, Sunnyvale, CA 94086-7637

For your protest to be counted, please include one of the following: the address(es) or Assessor's Parcel number(s) of the property(ies) you own, or the utility account number(s) or address(es) for open utility account(s) that are subject to the proposed rate adjustment. Email protests will not be counted. Protests are limited to one per parcel. If you have any questions about the protest process, please call (408) 730-7400, TDD (408) 730-7501.

This letter may be made available upon request in alternative formats by calling the City of Sunnyvale Utility Billing Office at (408) 730-7400, TDD (408) 730-7501.

Proposed Utility Service Rates Fiscal Year 2016/17

RESIDENTIAL UTILITY RATES

SINGLE-FAMILY RESIDENTIAL METERED WATER FEES

COMMERCIAL WASTEWATER RATES

Commercial Users per 100 Cubic Feet (CCF) of water usage

The monthly rate for wastewater service for each commercial user shall be the following charge for each on hundred (100) cubic feet or fraction thereof of sanitary sewage and waste discharge from the premises. Strength is defined in Municipal Code Section 12.04.030.

	Current Rate	Proposed Rate
Low Strength	\$3.54	\$3.82
Standard Strength	\$3.92	\$4.23
High Strength	\$6.70	\$7.24

Significant Industrial Users per 100 Cubic Feet (CCF)¹

The monthly rate for wastewater service for all significant industrial users for each one hundred (100) cubic feet or fraction thereof, of sanitary sewage and waste discharge from the premises shall be the annual total flow in hundred cubic feet divided into the sum of the following:

	Current Rate	Proposed Rate
Per 1,000,000 gallons of sewage discharged	\$3,703.44	\$3,999.72
Per 1,000 pounds of "suspended solids" discharged	\$1,347.81	\$1,455.63
Per 1,000 pounds of "total organic carbon" discharged	\$1,747.90	\$1,887.73
Per 1,000 pounds of "ammonia nitrogen" discharged	\$5,318.70	\$5,744.20

¹The monthly rate shall not be less than the standard strength rate for commercial premises.

FOOD SCRAPS COLLECTION PROGRAM

*See full proposed fee schedule at UtilityBilling.inSunnyvale.com for rates for a potential commercial food scraps cart and/or split cart garbage and food scraps collection program. (Split carts have two compartments; one side for garbage and the other side for food scraps.) Actual rates will not exceed those shown and will only become effective upon City Council approval of a program.
