SUBJECT: 2009-0400 Amend the Zoning Code for Consistency with the Precise Plan for El Camino Real and Recent Streamlining Efforts

BACKGROUND
In January 2007, Council approved the updated Precise Plan for El Camino Real (RTC 07-003), which sets forth the vision, goals and policies for future development on El Camino Real. To implement the vision described in the Plan, Council rezoned all properties along El Camino Real to include the Precise Plan for El Camino Real Combining District (ECR). Council also directed staff to prepare amendments to the Municipal Code (Sections 19.26.140-190) to ensure the development standards in the zoning code are consistent with the Precise Plan.

EXISTING POLICY
COMMUNITY DESIGN SUB-ELEMENT:
Policy A.2: Ensure that new development is compatible with the character of special districts and residential neighborhoods.
   Action Statement A.2.c: Continue to encourage infill development or redevelopment which is compatible with the use, density, setbacks, height and, where possible, the predominant building style and size of the surrounding district or neighborhood.

LAND USE AND TRANSPORTATION ELEMENT:
Policy N1.11: Recognize El Camino Real as a primary retail corridor with a mix of uses.
   Action Statement N1.11.1: Use the Precise Plan for El Camino Real to protect legitimate business interests, while providing sufficient buffer and protection for adjacent and nearby residential uses.
   Action Statement N1.11.2: Minimize linear “Strip development” in favor of commercial development patterns that reduce single-purpose vehicle trips.
DISCUSSION
Proposed Development Standards for El Camino Real
The Precise Plan for El Camino Real lists the following development guidelines to be incorporated into the zoning code for ECR properties:

- For properties not within a Node, reduce the maximum height from 75 feet to 55 feet and reduce the minimum front setback from 70 feet to 15 feet;
- Require buffer walls and landscaping, restrict the location of loading and trash enclosure areas, and limit the height of buildings and light standards on proposed non-residential uses adjacent to residential neighborhoods; and
- Create specific development standards for properties within a Node, which may differ from those of ECR properties not within a Node. These include:
  - Minimum lot size of two acres for non-residential or mixed use projects;
  - No minimum front yard setback provided vision triangle requirements are met;
  - Maximum building height higher than 55 feet; and
  - Minimum percentage as commercial use in mixed use developments.

Staff has prepared the ordinance located in Attachment A to amend the zoning code and incorporate the development standards recommended in the Precise Plan. Additional development standards that can be used within the El Camino Real Nodes will be considered as part of the 2010 Council Study Issue, *Toolkit for Commercial/Residential Mixed Use Developments* (CDD 10-06), which was ranked by Council to be studied this calendar year.

Streamlining Permit Review Processes
In October of 2009, Council adopted a series of code amendments to streamline the permit process for certain uses (RTC 09-263). While preparing the proposed ordinance to incorporate development standards in the ECR combining district, staff became aware that other sections of the Code should be amended to be consistent with the City’s recent streamlining efforts.

Currently, any request for new construction, alteration, or change of use on property with the ECR or Planned Development (PD) combining district designation requires approval of a Special Development Permit (SDP) regardless of what the underlying zoning district (i.e., C-2 zoning district) allows. Council’s recent action to reduce the permit review needed does not apply in the ECR or PD combining district. Technically, uses allowed by right or with approval of a
Miscellaneous Plan Permit in the underlying district would need to go through a public hearing process if within an ECR or PD combining district.

Many existing SDPs and Use Permits (UPs) on El Camino Real properties, and throughout the City, issued prior to establishment of current regulations, also contain provisions that require Planning Commission or City Council review for certain uses or proposals. Under current regulations and processes, similar projects submitted today would not require those same levels of review.

To be consistent with current processes for most projects city-wide and Council’s recent action to simplify permit reviews, staff has included the following provisions in the attached ordinance:

- For new uses and structures on property combined with ECR or PD, require the same permit review levels as the underlying zoning district;
- For modifications or change of use on property with an existing SDP or UP, allow the director of community development to determine appropriate permit review levels so they are consistent with current processes of prior decisions;
- Incorporate the provisions of Council Policy 1.1.11 (Planned Development (PD) Combining District Use Guidelines) which is located in Attachment C; and
- Modify and clean up other sections of the combining districts chapter for clarity and to ensure consistency with recent streamlining efforts.

**FISCAL IMPACT**
No fiscal impact is expected.

**ENVIRONMENTAL IMPACT**
A Negative Declaration has been prepared in compliance with the California Environmental Quality Act provisions and City Guidelines. An initial study has determined that the proposed project would not create any significant environmental impacts (see Attachment B).

**PUBLIC CONTACT**
Public Contact was made through posting of the Planning Commission agenda on the City’s official-notice bulletin board, on the City’s Web site, and the availability of the agenda and report in the Office of the City Clerk. Public notices were sent to neighborhood associations, Sunnyvale Chamber of Commerce and other interested parties.
ALTERNATIVES
1. Introduce the proposed ordinance in Attachment A and adopt the Negative Declaration in Attachment B.
2. Repeal Council Policy 1.1.11 (Planned Development (PD) Combining District Use Guidelines) as it is incorporated into the proposed ordinance (Attachment C).
3. Introduce the proposed ordinance with modifications and adopt the Negative Declaration in Attachment B.
4. Do not adopt the ordinance.

RECOMMENDATION
Staff recommends Alternatives 1 and 2. Introduce the proposed ordinance in Attachment A, adopt the Negative Declaration in Attachment B and repeal Council Policy 1.1.11 as it is incorporated into the proposed ordinance (Attachment C).

ORDINANCE NO. __________

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SUNNYVALE AMENDING CERTAIN SECTIONS OF TITLE 19 (ZONING) OF THE SUNNYVALE MUNICIPAL CODE RELATING TO THE PRECISE PLAN FOR EL CAMINO REAL

NOW THEREFORE, THE CITY COUNCIL OF THE CITY OF SUNNYVALE DOES ORDAIN AS FOLLOWS:

SECTION 1. CHAPTER 19.26 AMENDED. Chapter 19.26 (Combining Districts) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby amended to read as follows:

Chapter 19.26

COMBINING DISTRICTS

19.26.030. PD Permit Uses to comply. PD combining district—Permit required.
19.26.060. HH heritage housingHeritage Housing (HH) combining district combining district created—Purpose.
19.26.080. HH combining district—Demolition and replacement construction in HH district.
19.26.090. ITR IndustrialIndustrial to residentialResidential (ITR) combining district created—Purpose.
19.26.110. ITR combining district—Damage or destruction—within the ITR district.
19.26.120. ITR combining district—Residential uses—within the ITR district.
19.26.130. ITR combining district—Industrial, commercial and office uses—within the ITR district.
19.26.140. ECR El Camino Real precise plan combining district created—Purpose—Precise Plan for El Camino Real (ECR) combining district created—Purpose.

19.26.190. ECR permit—Conditions and findings.

19.26.230. Live/work units

   (a) There is hereby created a combining district to be known as PD planned Development district which may be combined with any of the zoning districts designated in Chapter 19.16.

   (b) The purpose of the combining district is to provide modifications, additions and limitations to other zoning districts to meet special conditions and situations concerning properties within such zoning districts that cannot otherwise be handled satisfactorily.

   (c) The addition of a combining district designated with any zoning district shall not operate to reduce or eliminate any requirements established by the basic district regulations or other requirements contained in this title applicable to any district with which the combining district is added unless expressly provided herein.

   (a) The purpose of this chapter is to provide a mechanism whereby certain additional regulations can be combined with the basic regulations of a zoning district to permit the use and development of land which has unique and special development circumstances that cannot be addressed with the standards of the underlying zoning district.

   (b) The addition of a combining district designated with any zoning district shall not operate to reduce or eliminate any requirements established by the basic district regulations or other requirements contained in this title applicable to any district with which the combining district is added unless expressly provided in this chapter.

No use shall be established or changed, or any building or structure constructed or altered, upon property in any zoning district with which a PD planned development district is combined unless a special development permit is first issued by the director of community development or the planning commission or the city council.

   (a) There is hereby created a combining district to be known as Planned Development (PD) combining district which may be combined with any of the zoning districts designated in Chapter 19.16.
(b) The purpose of the PD combining district is to provide modifications, additions and limitations to other zoning districts to meet special conditions and situations concerning properties within such zoning districts that cannot otherwise be handled satisfactorily. This district is also intended to provide opportunities for creative development approaches and standards that will achieve superior community design, environmental preservation and public benefit, such as, but not limited to:

1. Facilitating development or redevelopment of a site to improve the neighborhood;
2. Allowing a proposed use that is compatible with the neighborhood but requires deviations from development standards for a successful project;
3. Facilitating desirable development of properties at significant intersections; or
4. Allowing development and creation of lots that are less than the minimum size required in the base zoning district.

19.26.030. PD Permit—Uses to comply. PD combining district—Permit required.
Following issuance of a permit:

(a) No use shall be established or changed, or any building or structure constructed or altered, upon property in any zoning district with which a PD planned development district is combined except in strict conformity with the permit and any conditions or requirements attached; and

(b) No use shall be established or changed, or any building or structure constructed or altered, in a manner which would not comply with the regulations of the zoning district with which the PD planned development district is combined except for modifications authorized by the permit, unless all development on the property covered by the permit is in strict conformity with the permit issued and all conditions or requirements attached.

(a) Uses. Except for uses listed as permitted uses in the underlying zoning district, no use shall be established or changed upon property in any zoning district with which the PD combining district is combined unless either a miscellaneous plan permit or special development permit is first issued by the director of community development, the planning commission or the city council in accordance with procedures set forth in Chapters 19.82 and 19.90.

(b) Structures. No building or structure shall be constructed or altered, upon property in any zoning district with which the PD combining district is combined unless either a miscellaneous plan permit or special development permit is first issued by the director of community development, the planning commission or the city council in accordance with procedures set forth in Chapters 19.82 and 19.90.

(a) There is hereby created a combining district to be known as Office (O) combining district which may be combined with any of the residential districts designated in Chapter 19.16.

19.26.060. **HH heritage housing** (HH) combining district created—Purpose.

(a) There is hereby created a combining district to be known as **HH heritage housing (HH)** combining district which may be combined with any of the residential zoning districts designated in Chapter 19.16 as a heritage resource district in accordance with Chapter 19.96.

Any person or group of persons may nominate a residential neighborhood for heritage district status. Nominations shall be considered by the heritage preservation commission for recommendation to the planning commission and city council. The power to initiate formal zoning action to establish, amend or remove heritage district status shall be reserved by the city council. The city council shall adopt a policy statement for each HH district setting forth the identifying historic characteristics. Any zoning action shall be taken in accordance with the adopted policy statement for the neighborhood.

(a) No demolition of any residential structure in a HH heritage housing combining district may be performed without approval by the heritage preservation commission pursuant to a public hearing as set forth in Chapter 19.96 subject to the following findings:

(1) – (3) [Text unchanged.]

19.26.090. **ITR combining district**—Industrial to residential (ITR) combining district created—Purpose.

(a) There is hereby created a zoning district to be known as **ITR industrial** to **residential** (ITR) combining district, which may be used in conjunction with certain industrial, commercial or office zoning districts as established in Chapter 19.16.

[Text unchanged.]

19.26.110. **ITR combining district**—Damage or destruction within the ITR district.

[Text unchanged.]

19.26.120. **ITR combining district**—Residential uses within the ITR district.

[Text unchanged.]

19.26.130. **ITR combining district**—Industrial, commercial and office uses within the ITR district.
19.26.140. **ECR El Camino Real precise plan combining district created—Purpose.** Precise Plan for El Camino Real (ECR) combining district created—Purpose.

(a) There is hereby created a combining district to be known as the **Precise Plan for El Camino Real (ECR) combining district** which may be combined with property along El Camino Real within any of the zoning districts designated in Chapter 19.16.

(b) The purpose of the ECR El Camino Real precise plan combining district is to implement the vision described in the Precise Plan for El Camino Real which calls for modifications, additions and limitations to zoning district regulations to implement the plan for and respond to the special conditions present along El Camino Real.

(c) The addition of the ECR El Camino Real precise plan combining district to any zoning district shall not operate to reduce or eliminate any requirements established by the basic district regulations or other requirements contained in this title applicable to any district with which the combining district is added unless expressly stated in the precise plan for El Camino Real or provided herein.

19.26.150. **Precise Plan for El Camino Real—ECR combining district—Permit required.**

The city council shall adopt a precise plan for El Camino Real which establishes generally applicable criteria and guidelines for the development of El Camino Real and specific criteria and guidelines for sites identified for further enhancement. This precise plan shall be adopted by resolution of the city council and is incorporated herein by reference. Minor additions to or deletions from the precise plan may be made by the planning commission; major changes require approval of the city council. (Ord. 2623-99 § 1 (part); prior zoning code § 19.20.410).

(a) **Uses.** Except for uses listed as permitted uses in the underlying zoning district, no use shall be established or changed upon property in any zoning district with which the ECR combining district is combined unless either a miscellaneous plan permit or special development permit is first issued by the director of community development, the planning commission or the city council in accordance with procedures set forth in Chapters 19.82 and 19.90.

(b) **Structures.** No building or structure shall be constructed or altered, upon property in any zoning district with which the ECR combining district is combined unless either a miscellaneous plan permit or special development permit is first issued by the director of community development, the planning commission or the city council in accordance with procedures set forth in Chapters 19.82 and 19.90.

(c) **Applications.** Permit applications may be subject to additional procedures and requirements set forth in the Precise Plan for El Camino Real.

In addition to the provisions of the underlying zoning district, a use or development shall comply with the provisions of the precise plan for ECR El Camino Real. These provisions include, but are not limited to:

(a) Minimum parcel size for nonresidential parcels shall be one acre, unless the precise plan specifies a larger minimum parcel size, or unless the parcel was legally created prior to the adoption of these provisions;

(b) Minimum frontage length for nonresidential parcels shall be two hundred feet, unless the precise plan specifies a larger minimum frontage length, or unless the parcel was legally created prior to the adoption of these provisions;

(c) Automobile repair facilities are prohibited unless they are an adjunct to a permitted use such as automobile dealership or automobile retail sales;

(d) Freestanding restaurants less than three thousand five hundred square feet, exclusive of any basement area, are prohibited;

(e) Fence heights up to seven feet shall be allowed for properties adjacent to residential developments, except that fences higher than seven feet may be approved in accordance with Chapter 19.48;

(f) Entrances and exits to nonresidential development shall not be permitted onto streets serving primarily residential uses, except that emergency entrances and exits may be approved if determined necessary by the fire marshal.

In addition to the provisions of the underlying zoning district, a use or development in any zoning district with which the ECR combining district is combined shall comply with the following development standards:

(a) **Lot Size.** Minimum lot size for nonresidential parcels shall be one acre.

(b) **Setback.** Properties within the ECR Combining District shall have a minimum front yard setback of fifteen (15) feet. There must be a minimum setback of twenty (20) feet from adjacent residential zoning districts not combined with the ECR combining district.

(c) **Building Height.** For any portion of a building that is within seventy-five (75) feet of a property line of a single-family residential zoning district the maximum building height shall be thirty (30) feet. In all other cases, maximum building height shall not exceed fifty-five (55) feet unless the property is located in a Node area delineated in the Precise Plan for El Camino Real.

(d) **Transitions Between Uses.**

   (1) Residential and Nonresidential. The following development standards apply to proposed nonresidential or mixed use development that is adjacent to a residential zoning district not combined with ECR:

   (A) **Buffer Walls and Landscaping.** A twenty-foot (20) wide landscaped buffer area is required. The properties shall be separated by a masonry wall of a minimum height of eight (8) feet, as measured from the highest adjoining grade.

   (B) **Loading Areas and Trash Enclosures.** All loading areas and trash enclosures shall be set back a minimum of twenty (20) feet from the property line.
(C) **Lighting.** Light standards located within a required landscaped buffer shall not exceed eight (8) feet in height, and shall not exceed fifteen (15) feet in height outside of the buffer.

(2) **Residential and Residential.** The development standards for transitions listed above may be required for proposed higher density residential development that is adjacent to a residential zoning district not combined with ECR.

(e) **Additional Requirements.** Additional or more restrictive requirements may be imposed through the issuance of a miscellaneous plan permit or special development permit to assure compliance with the Precise Plan for El Camino Real.

19.26.170. **ECR permit—required.** **ECR combining district—General Development Standards for Node Properties.** No use shall be established or changed, or any building or structure constructed or altered, upon property in any zoning district with which an ECR El Camino Real precise plan district is combined unless either a special development permit is first issued by the director of community development, the planning commission or the city council in accordance with procedures set forth in Chapter 19.90. (Ord. 2623-99 § 1 (part); prior zoning code § 19.20.430). In addition to the provisions of the underlying zoning district, and the requirements set forth in section 19.26.160, a use or development within a Node area, as delineated in Precise Plan, shall comply with the following development standards:

(a) **Lot Size.** Minimum lot size for nonresidential or mixed use projects shall be two (2) acres.

(b) **Uses.** Mixed use development in a commercial zoning district within a Node area must have a minimum of 20% of the lot area (floor area ratio) as commercial use.

(c) **Setback.** Mixed use development within a Node area may have a zero front yard setback provided all applicable vision triangle requirements are met.

(d) **Building Height.** For any portion of a building that is within seventy-five (75) feet of a property line of a single-family residential zoning district, the maximum building height shall be thirty (30) feet. In all other cases, maximum building height shall not exceed seventy-five (75) feet.

(e) **Additional Requirements.** Additional or more restrictive requirements may be imposed through the issuance of a miscellaneous plan permit or special development permit to assure compliance with the Precise Plan for El Camino Real.

19.26.180. **ECR permit—Uses to comply.**

[Repealed.]
Following issuance of a permit:

(a) No use shall be established or changed, or any building or structure constructed or altered, upon property in any zoning district with which an ECR El Camino Real precise plan district is combined except in strict conformity with the permit and any conditions or requirements attached; and

(b) No use shall be established or changed, or any building or structure constructed or altered, in a manner which would not comply with the regulations of the zoning district with which the ECR El Camino Real precise plan district is combined except for the modifications authorized by the permit, unless all development on the property covered by the permit is in strict conformity with the permit issued and all conditions or requirements attached.

19.26.190. ECR permit—Conditions and findings.

[Repealed.]

A project which does not conform to the precise plan for El Camino Real may be denied upon a finding that the permit, as requested, does not meet the findings specified in Chapter 19.90. As an exception to the foregoing, if any of the following findings can be made, then the project may be approved:

(a) Deviation from the precise plan is minor, the project furthers the vision for El Camino Real as specified in the precise plan and granting of the deviation will not impair the ability of other properties to conform to the requirements of the precise plan.

(b) The project conforms to the general development criteria specified for the underlying zoning district and there are no other reasonable alternatives for the use or development of the property. In the event that this is the sole basis for the request to deviate from the requirements of the precise plan the following criteria shall be used to evaluate the application under this section:

(1) The size of the property cannot accommodate larger buildings;

(2) The shape of the property cannot support other uses;

(3) Any other information the director of community development, planning commission or city council finds pertinent to the application.

[Text unchanged.]

[Text unchanged.]

[Text unchanged.]
SECTION 2. SECTION 19.82.050 AMENDED. Section 19.82.050 of Chapter 19.82 (Miscellaneous Plan Permit) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby amended to read as follows:

19.82.050. Findings.
   (a) The director or planning commission may approve any miscellaneous plan permit, with the exception of a determination of convenience or necessity, upon such conditions, in addition to those expressly provided in other applicable provisions of this code, as it finds desirable in the public interest, upon finding that the permit will either:
      (1) Attain the objectives and purposes of the general plan, specific plan, precise plan, or other specialized plan of the city of Sunnyvale; or
      (2) [Text unchanged.]

SECTION 3. SECTION 19.88.050 AMENDED. Section 19.88.050 of Chapter 19.88 (Use Permits) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby amended to read as follows:

19.88.050. Findings.
   The director, planning commission or city council may approve any use permit upon such conditions, in addition to those expressly provided in other applicable provisions of this code, as it finds desirable in the public interest, upon finding that the permit will either:
   (a) Attain the objectives and purposes of the general plan, specific plan, precise plan, or other specialized plan of the city of Sunnyvale; or
   (b) [Text unchanged.]

SECTION 4. SECTION 19.90.030 AMENDED. Section 19.90.030 of Chapter 19.90 (Special Development Permits) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby amended to read as follows:

   (a) [Text unchanged.]
   (b) Deviations in standards from lot area per dwelling unit that may not be approved though a special development permit are:
      (1) Buildings in excess of seventy-five (75) feet in height, except that buildings in M-S or M-3 zoning district located in the area north of State Route 237 may exceed seventy-five (75) feet in height, upon a recommendation of the planning commission and approval by the city council.
      (2) Retail sales of alcoholic beverages or groceries upon automobile service station premises as defined in the definitions chapter of this title.
      (3) Lot area per dwelling unit.

SECTION 5. SECTION 19.90.050 AMENDED. Section 19.90.050 of Chapter 19.90 (Special Development Permits) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby amended to read as follows:

19.90.050. Findings.
The director, planning commission or city council may approve any special development permit upon such conditions, in addition to those expressly provided in other applicable provisions of this code, as it finds desirable in the public interest, upon finding that the permit will either:

(a) Attain the objectives and purposes of the general plan, specific plan, precise plan, or other specialized plan of the city of Sunnyvale; or

(b) [Text unchanged.]

SECTION 6. SECTION 19.98.015 ADDED. Section 19.98.015 of Chapter 19.98 (General Procedures) of Title 19 (Zoning) of the Sunnyvale Municipal Code is hereby added to read as follows:

**19.98.015. Existing permits.**

On property for which a use permit or special development permit has been issued prior to the adoption of regulations stated in this Title, the director of community development may determine the appropriate permit and procedure for an owner’s application for modifications to an existing permit, such that it is in accordance with current permit requirements, procedures for similar proposals, and prior decisions.

SECTION 7. CEQA. The City Council finds, pursuant to Title 14 of the California Code of Regulations, that this ordinance and the Negative Declaration have been prepared and are in compliance with the requirements of CEQA and hereby adopts the Negative Declaration.

SECTION 8. CONSTITUTIONALITY; SEVERABILITY. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid by a court of competent jurisdiction, such decision or decisions shall not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have adopted this ordinance, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more section, subsection, sentence, clause or phrase be declared invalid.

SECTION 9. EFFECTIVE DATE. This ordinance shall be in full force and effect thirty (30) days from and after the date of its adoption.

SECTION 10. POSTING AND PUBLICATION. The City Clerk is directed to cause copies of this ordinance to be posted in three (3) prominent places in the City of Sunnyvale and to cause publication of a notice once in The Sun, the official newspaper for publication of legal notices of the City of Sunnyvale, setting forth the date of adoption, the title of this ordinance, and a list of places where copies of this ordinance are posted, within fifteen (15) days after adoption of this ordinance.

Introduced at a regular meeting of the City Council held on ________________, 2010 and adopted as an ordinance of the City of Sunnyvale at a regular meeting of the City Council held on ________________, 2010, by the following vote:

| General Plan | Properties governed by the Precise Plan for El Camino Real: Commercial General Business, Residential High Density and Civic Center General Plan Designations |
| Other Public Agencies whose approval is required | None |

**Description of the Project:** In January 2007, Council approved the updated Precise Plan for El Camino Real (RTC 07-003), which sets forth the vision, goals and policies for future development on El Camino Real. To implement the vision described in the Plan, Council rezoned all properties along El Camino Real to include the Precise Plan for El Camino Real Combining District (ECR). Council also directed staff to prepare amendments to the Municipal Code (Sections 19.26.140-190) to ensure the development standards in the zoning code are consistent with the Precise Plan.

The ordinance located in Attachment A contains the following proposed zoning code amendments for zoning districts combined with ECR:

- Reduce the maximum height from 75 feet to 55 feet;
- Reduce the minimum front setback from 70 feet to 15 feet;
- Require buffer walls and landscaping to transition between residential and non-residential uses; and
- Create specific development standards for properties within a Node, which may differ from those of ECR properties not within a Node. The proposed development standards
for Node properties include minimum lot size of 2 acres and allowance of a zero front yard setback for mixed use projects (still subject to vision triangle requirements).

The following amendments are also proposed to be consistent with current processes and Council’s recent action to streamline permit reviews:

- For proposed uses and structures, require the same permit requirements as the underlying zoning district with which ECR is combined; and
- For proposals on property with an existing SDP or UP, allow the director of community development to determine appropriate permit review levels that are consistent with current processes.

There is no construction directly related to this project therefore no physical changes to the environmental would result. Further environmental review would be required for specific project applications triggering permit requirements in the existing Sunnyvale Municipal Code.

**Surrounding Uses and Setting:** This ordinance affects all zoning districts combined with the ECR combining district, which are properties along the El Camino Real corridor. The existing uses on the affected properties are primarily commercial and multi-family residential, and also includes Civic Center. The corridor is surrounded mostly by residential uses (single-family and multi-family).

**EVALUATION OF ENVIRONMENTAL IMPACTS**

1. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A “No Impact” answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A “No Impact” answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A “No Impact” answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A “No Impact” answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

3. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

4. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. “Potentially Significant Impact” is appropriate if there is substantial evidence that an effect may be significant. If there are one
or more “Potentially Significant Impact” entries when the determination is made, an EIR is required.

5. “Negative Declaration: Potentially Significant Unless Mitigation Incorporated” applies where the incorporation of mitigation measures has reduced an effect from “Potentially Significant Impact” to a “Less Significant Impact.” The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, “ Earlier Analysis,” may be cross-referenced).

6. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:

7. Earlier Analysis Used. Identify and state where they are available for review.

8. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

9. Mitigation Measures. For effects that are “Less than Significant with Mitigation Measures Incorporated,” describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

10. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:
The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a “Potentially Significant Impact” as indicated by the checklist on the following pages.

☐ Aesthetics ☐ Hazards & Hazardous Materials ☐ Public Services
☐ Agricultural Resources ☐ Hydrology/Water Quality ☐ Recreation
☐ Air Quality ☐ Land Use/Planning ☐ Transportation/Traffic
☐ Biological Resources ☐ Mineral Resources ☐ Utilities/Service Systems
☐ Cultural Resources ☐ Noise ☐ Mandatory Findings of Significance
☐ Geology/Soils ☐ Population/Housing

DETERMINATION:
On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☒

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

I find that the proposed project MAY have a “potential significant impact” or “potentially significant unless mitigated” impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

### Potentially Significant Impact
- **Category:** Physically divide an established community?
- **Impact:** No Impact
- **Source:** 111

### Potentially Significant Impact
- **Category:** Conflict with an applicable land use plan, policy or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?
- **Impact:** No Impact
- **Source:** 2, 12, 43, 111

### Potentially Significant Impact
- **Category:** Conflict with any applicable habitat conservation plan or natural community conservation plan?
- **Impact:** No Impact
- **Source:** 17

### MINERAL RESOURCES
- **Category:** Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?
- **Impact:** No Impact
- **Source:** 19

### MINERAL RESOURCES
- **Category:** Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?
- **Impact:** No Impact
- **Source:** 19

### NOISE
- **Category:** Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?
- **Impact:** No Impact
- **Source:** 16, 29

### NOISE
- **Category:** Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?
- **Impact:** No Impact
- **Source:** 16, 29

### NOISE
- **Category:** A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?
- **Impact:** No Impact
- **Source:** 16, 29

### NOISE
- **Category:** A substantially temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?
- **Impact:** No Impact
- **Source:** 16, 29

### POPULATION AND HOUSING
- **Category:** Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension
- **Impact:** No Impact
- **Source:** 43, 111

#### 9. PUBLIC SERVICES

Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities, need for new or physically altered government facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

- **a. Schools?**
  - Potentially Significant Impact: [ ]

#### 10. MANDATORY FINDINGS OF SIGNIFICANCE

- **a.** Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
  - Potentially Significant Impact: [ ]
  - Less Than Significant With Mitigation: [ ]
  - Less Than Significant: [ ]
  - No Impact: X
  - Source: 111
b. Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of the past projects, the effects of other current projects, and the effects of probable future projects?)

### Discussion:

**1.d Aesthetics:** The proposed ordinance includes reduction of front yard setback requirements to encourage buildings to be placed closer to the street and provide a more pedestrian-friendly environment. There is no construction directly related to this project. Future projects that will be subject to the proposed development standards will each be evaluated to determine impact to neighboring uses and subsequent environmental review will be undertaken.

Policy 1.1.11  Planned Development (PD) Combining District Use Guidelines

POLICY PURPOSE:

To develop specific guidelines regarding the intended circumstances and appropriate use of the PD Combining District. The policy defines when it is appropriate to apply the PD Combining Zoning District and provides more specific criteria for considering deviations from the Zoning Code through the use of a Special Development Permit.

POLICY STATEMENT:

Justifications and benefits of applying the PD Combining District:

1. To facilitate development or redevelopment of a site to improve the neighborhood.
2. To allow for a proposed use that is compatible with the neighborhood but requires deviations from development standards for a successful project.
3. To facilitate desirable development of properties at significant intersections.
4. To allow for the development and creation of lots that are less than the minimum size required in the base zoning district.

Commonly requested deviations and potential justifications are set forth in the accompanying guidelines.

Staff reports for a PD Combining District must include a section that specifically analyzes the cumulative effects of any requested deviations, impacts to the immediate neighborhood (industrial as well as residential); and any potential citywide impacts that may result must be analyzed, discussed and reviewed.

(Adopted: RTC 98-010 (10/20/98); (Clerical/clarity update, Policy Update Project 8/2005))

</tbody>
</table>

- Significant site feature (e.g. trees, buildings, etc.) is preserved
- Provide additional parking spaces
- Provide shared recreational amenities
- Provide specimen sized trees – 36 inch box or greater
- Provide large sized shrubs – 15 gal. or greater
- FAR for residential projects less than 50%
- Underground parking
- Off site amenity provided such as covered bus shelter
- Project includes design solutions resulting in a less dense and massive appearance – could include:
  - Many variations in setbacks and projections
  - Variation in exterior colors and materials
  - Variation of roof heights
- Landscape plan provides screening, enhances design and softens the appearance of the project
- Project design incorporates appropriate transition to buffer existing adjacent land uses.
