BACKGROUND:

The proposed project is for a Landmark Alteration Permit for a façade improvement to an existing commercial building located at 151 W. Washington Avenue. A Landmark Alteration Permit is required for any exterior modification to buildings in the Local Landmark District. The building was included as part of the adopted district since it is located on an adjacent parcel to those properties on Murphy Avenue and is considered a logical connection; however, it does not share the same historic commercial street or building history. The subject building was recently damaged by a fire. The proposed project would repair the existing building and update the façade along all four sides. The architectural review is the responsibility of the Heritage Preservation Commission.

Previous Actions on the Site

The following table summarizes previous planning applications related to the project site.

</tbody>
</table>

The most recent proposal listed above relates to modifications to the building that were needed to accommodate a public improvement along Washington
Avenue. The eave had to be modified to enable adequate room for streetlamps at the portion of the street.

**DISCUSSION:**

**Landmark Alteration Permit**

The scope of the Landmark Alteration Permit consists only of changes to the façade of the existing building. Future consideration of specific uses for the tenant spaces will be subject to the permitting requirements listed in Chapter 19.28 of the Sunnyvale Municipal Code.

- **Floor Plan**

  The provided floor plan indicates area divided into three tenants with most of each space being open to allow flexibility depending on the proposed use. The interior of the building will be reconfigured and two second story mezzanine levels will be removed. Future tenants will likely consider modifications to the floor plan which are subject to Building Permits.

- **Architecture**

  Portions of the existing building, towards the corner of Frances Street and W. Washington Avenue, had matched architectural design of the nearby Town and Country development with the use of a tile roof material. The Town and Country Development has since been demolished. A large portion of the building consisted of a flat tilt-up building with only window openings to break up the façade. The new building will differ in architectural style, as illustrated in the “Elevations” and “Perspective” plans on pages 3 & 5 of Attachment C. The height of the new façade would not exceed the maximum height of the current building as the existing roof screen reaches a peak of approximately 22 feet; however, the building will appear taller at the street corner than current conditions.

  A majority of the updates to the facade will take place along the more visible locations along the Washington Avenue and Frances Street sides of the building. New larger storefront windows and cement plaster exterior walls are to be created along portions of each elevation, including various projecting pilasters. Each pilaster consists of a cornice cap and recessed accent tiles composed of ceramic glass. The base of the pilasters is noted to be composed of 4” CMU (concrete masonry unit). Staff has included Condition of Approval PS-1 which requires that the base be composed of an alternate material such as tiling, brick, or alternative material commonly found on Murphy Avenue. The building alternates with rounded and straight mansards above the storefronts. The roof tiling that exists on portions of the building at the corner would be replaced with metal material.
for awnings. The columns and awnings extend along three elevations. Along the alley side, which is the least visible, will consist of mostly concrete and faux pilasters to add interest. Vertical and horizontal articulation is still provided to a lesser degree with banding and different color paint. Light fixtures are also situated on each elevation.

As stated previously, further tenant improvements are still to be determined and will likely occur at a later date. Those improvements to the exterior may require subsequent review by the Heritage Preservation Commission if proposed. As a building located in the Local Landmark District, new signage will be required to conform to Murphy Avenue Design Guidelines.

The color scheme of the building has not been completely determined at this point. The applicant intends a single color for the majority of the concrete walls with the use of accent colors for the pilasters. A different accent color will be used to highlight the caps of the columns. The standing seam metal awning will be painted a single color as well. Condition of Approval PS-1b requires that the applicant work with staff on a final color palette for the façade to be character with the Murphy Avenue Design Guidelines. The existing roof screen will remain on the building and will be painted to match the color of the metal awnings.

Although more contemporary in style than to some of the older development along Murphy Avenue, the proposed building will be similar in scale and form as those found nearby on along Washington Avenue and Murphy Avenue. The new design utilizes a similar combination of awnings and storefront windows that better blends in with these commercial structure over the current design.

**ANALYSIS:**

Staff has concluded through research that the building is not considered a contributing structure to the Landmark District. The building was constructed originally in the 1950s and then modified significantly in approximately 1976. Similar to the current proposal, earlier façade modifications occurred, due to fire damage to the building. A portion of the building at the corner was modified to look more like the neighboring Town and Country development. Since that development has been demolished, the current proposal does not plan to be rebuilt in a similar architectural style. As stated in the preceding section, the proposal will consist of a more updated commercial design with the use of large storefront windows and separate individual awnings. Although more modern in certain respects to existing development along Murphy Avenue, similar design techniques are utilized which are consistent with the established Murphy Avenue Design Guidelines.
Applicable Design Guidelines and Policy Documents

<tbody>
<tr>
<td>Murphy Avenue Design Guidelines (Colors)</td>
<td>&quot;Beige, muted yellows, pale peach colors, blue-grays, ochre and dusty rose colors are part of the palette that could be coordinate to enhance Murphy Avenue’s image.&quot;</td>
<td>The proposed colors are consistent with the Murphy Avenue Design Guidelines and the final palette will be coordinated with staff.</td>
</tr>
<tr>
<td>Murphy Avenue Design Guidelines (Materials)</td>
<td>“Generally, materials are expected to be appropriate if they express or enhance the character of a building.”</td>
<td>The proposed materials are compatible with the character of other buildings in the Murphy Avenue Landmark District. Staff is recommending the use of an alternate material along the base of the building per Conditions of Approval. The applicant may utilize tiling, brick or another alternative material, which is commonly found along Murphy Avenue.</td>
</tr>
<tr>
<td>Murphy Avenue Design Guidelines (Awnings)</td>
<td>Many of the Murphy Avenue buildings were designed to have a retractable 45-degree angle awning.</td>
<td>The proposed awnings will project from the facades along Washington Avenue and Frances Street at a similar angle to those found along Murphy Avenue. The awnings extend approximately 3 feet from the storefront.</td>
</tr>
</tbody>
</table>

Environmental Review

A Negative Declaration has been prepared in compliance with the California Environmental Quality Act provisions and City Guidelines. An initial study has determined that the proposed project would not create any significant environmental impacts (see Attachment C, Initial Study).

FISCAL IMPACT

No fiscal impacts other than normal fees and taxes are expected.

CONCLUSION

**Findings and General Plan Goals:** Staff was able to make the required Findings based on the justifications for the Landmark Alteration Permit. Recommended Findings and General Plan Goals are located in Attachment A.

**Conditions of Approval:** Recommended Conditions of Approval are located in Attachment B.

**ALTERNATIVES**

1. Adopt the Negative Declaration and approve the Landmark Alteration Permit with attached conditions.
2. Adopt the Negative Declaration and approve the Landmark Alteration Permit with modified conditions.
3. Do not adopt the Negative Declaration and direct staff as to where additional environmental analysis is required.
4. Deny the Landmark Alteration Permit.
RECOMMENDATION

Alternative 1.

Landmark Alteration Permit

Heritage Preservation Sub-Element
Policy 6.3B.3: Enhance the visual character of the city by preserving diverse as well as harmonious architectural styles and design preferences which reflect various phases of the City's history and cultural traditions of past and present residents.

Action Statement 6.3B.1d: Encourage ongoing maintenance and appropriate use of heritage properties.

1. The proposed project will be consistent with the purposes of the Heritage Preservation Ordinance. *(Finding Met)*

The proposed building façade modification is consistent with City ordinances and design guidelines. The existing buildings have been modified such that they do not embody a unique architectural style nor identify with the neighboring historic district. The proposed modifications respect the character of the Murphy Avenue commercial district.

2. The proposal will not be detrimental to the significant historical features of the building.

The project will enhance the general appearance of the site as well as surrounding area. The project improves an area that has been underutilized. The updated façade consists of high quality design and materials that will blend in with existing and future commercial development in the area.
ATTACHMENT B

RECOMMENDED CONDITIONS OF APPROVAL AND STANDARD DEVELOPMENT REQUIREMENTS
JULY 13, 2011

Planning Application 2011-7315
151 W. Washington Avenue

Landmark Alteration Permit to consider a façade improvement to an existing commercial building on a property within the Local Landmark District.

The following Conditions of Approval [COA] and Standard Development Requirements [SDR] apply to the project referenced above. The COAs are specific conditions applicable to the proposed project. The SDRs are items which are codified or adopted by resolution and have been included for ease of reference, they may not be appealed or changed. The COAs and SDRs are grouped under specific headings that relate to the timing of required compliance. Additional language within a condition may further define the timing of required compliance. Applicable mitigation measures are noted with “Mitigation Measure” and placed in the applicable phase of the project.

In addition to complying with all applicable City, County, State and Federal Statutes, Codes, Ordinances, Resolutions and Regulations, Permittee expressly accepts and agrees to comply with the following Conditions of Approval and Standard Development Requirements of this Permit:

GC: THE FOLLOWING GENERAL CONDITIONS AND STANDARD DEVELOPMENT REQUIREMENTS SHALL APPLY TO THE APPROVED PROJECT.

GC-1. CONFORMANCE WITH APPROVED PLANNING APPLICATION:
All building permit drawings and subsequent construction and operation shall substantially conform with the approved planning application, including: drawings/plans, materials samples, building colors, and other items submitted as part of the approved application. Any proposed amendments to the approved plans or Conditions of Approval are subject to review and approval by the City. The Director of Community Development shall determine whether revisions are considered major or minor. Minor changes are subject to review and approval by the Director of Community Development. Major changes are subject to review at a public hearing. [COA] [PLANNING]

GC-2. PERMIT EXPIRATION:
The permit shall be null and void two years from the date of approval by the final review authority at a public hearing if the approval is not exercised, unless a written request for an extension is received prior
to expiration date and is approved by the Director of Community Development. [SDR] [PLANNING]

GC-3. TITLE 25:
Provisions of Title 25 of the California Administrative Code shall be satisfied with dependence on mechanical ventilation. [SDR] [BUILDING]

GC-4. SIGNS:
All new signs shall be brought into conformance with Title 19 of the Sunnyvale Municipal Code. [PLANNING] [COA]

GC-5 AWNINGS:
Any change of color, materials or design and are subject to review and approval by the Heritage Preservation Commission. Minor modifications may be approved by the Director of Community Development. [COA] [PLANNING]

PS: THE FOLLOWING CONDITIONS SHALL BE MET PRIOR TO SUBMITTAL OF BUILDING PERMIT, AND/OR GRADING PERMIT.

PS-1. REQUIRED REVISIONS TO PROJECT PLANS:
The plans shall be revised to address comments from the Heritage Preservation Commission including the following:
   a) Modifications shall be made to utilize an alternate material at the base of the columns such as a form of tile, brick or other material consistent to those found within the Murphy Avenue Landmark District.
   b) The applicant shall work with staff regarding a final color palette for the building that is in character with the Murphy Avenue Design Guidelines.

PS-2. EXTERIOR MATERIALS REVIEW:
Final exterior building materials and color scheme are subject to review and approval by the Director of Community Development prior to submittal of a building permit. [COA] [PLANNING]

BP: THE FOLLOWING CONDITIONS SHALL BE ADDRESSED ON THE CONSTRUCTION PLANS SUBMITTED FOR ANY DEMOLITION PERMIT, BUILDING PERMIT, GRADING PERMIT, AND/OR ENCROACHMENT PERMIT AND SHALL BE MET PRIOR TO THE ISSUANCE OF SAID PERMIT(S).
BP-1. CONDITIONS OF APPROVAL:
Final plans shall include all Conditions of Approval included as part of the approved application starting on sheet 2 of the plans. [COA] [PLANNING]

BP-2. RESPONSE TO CONDITIONS OF APPROVAL:
A written response indicating how each condition has or will be addressed shall accompany the building permit set of plans. [COA] [PLANNING]

BP-3. BLUEPRINT FOR A CLEAN BAY:
The building permit plans shall include a “Blueprint for a Clean Bay” on one full sized sheet of the plans. [SDR] [PLANNING]

BP-4. ROOF EQUIPMENT:
Roof vents, pipes and flues shall be combined and/or collected together on slopes of roof or behind parapets out of public view as per Title 19 of the Sunnyvale Municipal Code and shall be painted to match the roof. [COA] [PLANNING]

BP-5. MECHANICAL EQUIPMENT (EXTERIOR):
Detailed plans showing the locations of individual exterior mechanical equipment/air conditioning units shall be submitted and subject to review and approval by the Director of Community Development prior to issuance of building permits. Proposed locations shall have minimal visual and minimal noise impacts to neighbors and ensure adequate usable open space. Individual exterior mechanical equipment/air conditioning units shall be screened with architecture or landscaping features. [COA] [PLANNING]

BP-6 SIDEWALK:
Any damage to the existing sidewalk, fixtures or utilities as a result of demolition and construction work shall be restored to conditions prior to or better than conditions at the commencement of work. Instruments of bond and certificate of insurance may be required prior to issuance of Building permit. [COA] [PUBLIC WORKS]
NOTICE OF INTENT TO ADOPT
NEGATIVE DECLARATION

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for a Landmark Alteration Permit filed by David Bider Investments.

PROJECT DESCRIPTION AND LOCATION (APN):

WHERE TO VIEW THIS DOCUMENT:

The Negative Declaration, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on Wednesday, July 13, 2011. Protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:

A public hearing on the project is scheduled for:

Wednesday, July 13, 2011 at 8:00 p.m. in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:

(No) listed toxic sites are present at the project location.

Circulated On June 17, 2011

None

### DESCRIPTION OF THE PROJECT:
The proposed project is for a Landmark Alteration Permit for a façade improvement to an existing commercial building. The building had been damaged by a fire. The project would repair the existing building and update the façade along all four sides. New storefront windows and exterior walls are to be created. The project proposes to removing tiling and replace with new metal roof material. The interior of the building will be reconfigured and two mezzanine levels will be removed. Additional tenant improvements are to be determine and will occur at a later date. The existing building which was constructed in 1950s, and modified in 1976, is not considered a contributing structure to the Historic Murphy Avenue Landmark.

### DETAILED PROJECT DESCRIPTION:

**On-site Development:** The current site consists of two 3,200 square foot commercial building located on a corner (W. Washington Avenue & Frances Street) lot. The building is divided into two spaces separated by a common concrete wall.

**Construction Activities and Schedule:** Construction activities include exterior improvements to all four sides and the reconfiguration of many interior walls. The project will be subject to the Sunnyvale Municipal Code requirements for noise and hours of construction contained in Chapters 19.42.0.0 and 16.08.030.

**Surrounding Uses and Setting:** The site is located 151 W. Washington Avenue at the corner of W. Washington Avenue and Frances Street. This block is within the historic Murphy Avenue Landmark District. The property is located adjacent to commercial uses along Murphy Avenue to the east. The property across Frances Street to the west is currently vacant. A commercial use (Macy's) is located south of the site and a parking lot (Downtown Parking District) which serves the site is located to the north.

**Off-site Improvements:** Existing utilities, damaged by the fire, are proposed to be reworked as required by the Municipal Code. Many upgrades have already taken place as part of a City improvement project.
EVALUATION OF ENVIRONMENTAL IMPACTS:

1. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A “No Impact” answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A “No Impact” answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. “Potentially Significant Impact” is appropriate if there is substantial evidence that an effect may be significant. If there are one or more “Potentially Significant Impact” entries when the determination is made, an EIR is required.

4. “Negative Declaration: Potentially Significant Unless Mitigation Incorporated” applies where the incorporation of mitigation measures has reduced an effect from “Potentially Significant Impact” to a “Less Significant Impact.” The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, “Earlier Analysis,” may be cross-referenced).

5. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:

6. Earlier Analysis Used. Identify and state where they are available for review.

7. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

8. Mitigation Measures. For effects that are “Less than Significant with Mitigation Measures Incorporated,” describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

9. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:
The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☐ Aesthetics
☐ Agricultural Resources
☐ Air Quality
☐ Biological Resources
☐ Cultural Resources
☐ Geology/Soils
☐ Hazards & Hazardous Materials
☐ Hydrology/Water Quality
☐ Land Use/Planning
☐ Mineral Resources
☐ Noise
☐ Population/Housing
☐ Public Services
☐ Recreation
☐ Transportation/Traffic
☐ Utilities/Service Systems
☐ Mandatory Findings of Significance

MANDATORY FINDINGS OF SIGNIFICANCE (see checklist for further information):

Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?

☐ Yes
☒ No

Mandatory Findings of Significance? Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of the past projects, the effects of other current projects, and the effects of probable future projects)?

☐ Yes
☒ No

Mandatory Findings of Significance? Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

☐ Yes
☒ No
DETERMINATION:
On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Further Discussion if "Less than Significant" with or without mitigation:

**Less than Significant Language**

1. **Aesthetics (Less than Significant):** The subject property lies within a Landmark District as designated by the City of Sunnyvale. The existing building, built in 1950s and rebuilt in 1976, will be reconstructed with new architectural features along each façade. The tile roof material is to be replaced by metal roofing. The tile roof material was added in 1976 in an effort to blend in better with the recently demolished Town and Country development. The storefront windows along the front of the building will be increased in height. The overall height of the building measured to the extent of the roof screen (which will be replaced) is not increased from previous conditions. However, the new cement pilasters located along front sides of the building extend to 21 feet, 4 inches. This height will appear taller at locations along the Washington and Frances corner of the building as compared to the existing condition where a sloped tile roof extends from the roof screen to a lower point closest to sidewalk area. The design enhances and updates the appearance one of the more recently constructed buildings located within the Landmark District.

15. **Noise (Less than Significant):** The project will introduce short-term sources of noise to the project area during construction and demolition of the site. Through the City's implementation of the Municipal Code noise regulations contained in Chapters 19.42.030 and 16.08.030, this impact will be lessened to a less than significant level during construction.

22. **Historic and Cultural Resources (Less than Significant):** The existing building which was constructed in 1950s, and modified in 1976, is not considered a contributing structure to the Historic Murphy Avenue Landmark. The property is not associated in an important way with an event or a pattern of events considered significant at a national, state, or local level, nor is it associated with an individual whose achievements are thought important to the history of the United States, California, or the City of Sunnyvale.

Further Discussion if “Less than Significant” with or without mitigation:

**Less than Significant Language**

**47. Geology and Soils (Less than Significant)** – The project site is not located in an area with any active faults, but may experience strong seismic ground shaking in the event of an earthquake. Through the City’s implementation of the Uniform Building Code requirements for areas with potential for seismic activity, this aspect of the project will be reduced to a less than significant level.

A. Downtown Specific Plan
B. El Camino Real Precise Plan
C. Lockheed Site Master Use Permit
D. Moffett Park Specific Plan
E. 101 & Lawrence Site Specific Plan
F. Southern Pacific Corridor Plan
G. Lakeside Specific Plan
H. Arques Campus Specific Plan

Environmental Impact Reports:
A. Futures Study Environmental Impact Report
B. Lockheed Site Master Use Permit Environmental Impact Report
C. Tasman Corridor LRT Environmental Impact Study (supplemental)
D. Kaiser Permanente Medical Center Replacement Center Environmental Impact Report (City of Santa Clara)
E. Downtown Development Program Environmental Impact Report
F. Caribbean-Moffett Park Environmental Impact Report
G. Southern Pacific Corridor Plan Environmental Impact Report
H. East Sunnyvale ITR General Plan Amendment EIR
I. Palo Alto Medical Foundation Medical Clinic Project EIR
J. Luminaire (Lawrence Station Road/Hwy 237 residential) EIR
K. NASA Ames Development Plan Programmatic EIS
L. Mary Avenue Overpass EIR
M. Mathilda Avenue Bridge EIR

Maps:
A. General Plan Map
B. Zoning Map
C. City of Sunnyvale Aerial Maps
D. Flood Insurance Rate Maps (FEMA)
E. Santa Clara County Assessors Parcel
F. Utility Maps
G. Air Installations Compatible Use Zones (AICUZ) Study Map
H. Noise Sub-Element Appendix A 2010 Noise Conditions Map

Note: All references are the most recent version as of the date the initial Study was prepared.
Lists / Inventories:
A. Sunnyvale Cultural Resources Inventory List
B. Heritage Landmark Designation List
C. Santa Clara County Heritage Resource Inventory
D. Hazardous Waste & Substances Sites List (State of California)
E. List of Known Contaminants in Sunnyvale

Legislation / Acts / Bills / Resource Agency Codes and Permits:
A. Subdivision Map Act
B. San Francisco Bay Region Municipal Regional Stormwater NPDES Permit
C. Santa Clara County Valley Water District Groundwater Protection Ordinance
D. The Hazardous Waste and Substance Site List www.ctsca.gov/SiteCleanup/Cortese_List.cfm
E. The Leaking Underground Petroleum Storage Tank List www.geotracker.waterboards.ca.gov
F. The Federal EPA Superfund List www.epa.gov/region9/cleanup/california.html Section 404 of Clean Water Act

Transportation:
A. California Department of Transportation Highway Design Manual
B. California Department of Transportation Traffic Manual
C. California Department of Transportation Standards Plans & Standard Specifications
D. Highway Capacity Manual
E. Institute of Transportation Engineers - Trip Generation Manual & Trip Generation Handbook
F. Institute of Transportation Engineers - Traffic Engineering Handbook
G. Institute of Transportation Engineers - Manual of Traffic Engineering Studies
H. Institute of Transportation Engineers - Transportation Planning Handbook
I. Institute of Transportation Engineers - Manual of Traffic Signal Design
J. Institute of Transportation Engineers - Transportation and Land Development
K. U.S. Dept. of Transportation Federal Highway Administration Manual on Uniform Traffic Control Devices for Street and Highways & CA Supplements
L. California Vehicle Code
M. Santa Clara County Congestion Management Program and Technical Guidelines
N. Santa Clara County Transportation Agency Short Range Transit Plan
O. Santa Clara County Transportation Plan for 2035
P. Traffic Volume Studies, City of Sunnyvale Public works Department of Traffic Engineering Division
Q. Statewide Integrated Traffic Records System
R. Sunnyvale Zoning Ordinance – including Titles 10 & 13
S. City of Sunnyvale General Plan – Land Use and Transportation Element
T. City of Sunnyvale Bicycle Plan
U. City of Sunnyvale Neighborhood Traffic Calming Program
V. Valley Transportation Authority Bicycle Technical Guidelines
W. Valley Transportation Authority Community Design & Transportation – Manual of Best Practices for Integrating Transportation and Land Use
X. Santa Clara County Sub-Regional Deficiency Plan
Y. City of Sunnyvale Deficiency Plan
Z. AASHTO: A Policy on Geometric Design of Highways and Streets
AA. City of Sunnyvale Pedestrian and Bicycle Opportunities Studies
BB. Valley Transportation Authority Operations Performance Report

Public Works:
A. Standard Specifications and Details of the Department of Public Works
B. Storm Drain Master Plan
C. Sanitary Sewer Master Plan
D. Water Master Plan
E. Solid Waste Management Plan of Santa Clara County
F. Geotechnical Investigation Reports
G. Engineering Division Project Files
H. Subdivision and Parcel Map Files

Note: All references are the most recent version as of the date the Initial Study was prepared.
Miscellaneous Agency Plans:
A. ABAG Projections 2010
B. Bay Area Clean Air Plan
C. BAAQMD CEQA Guidelines
D. Criteria of the National Register of Historic Places

Building Safety:
A. California Building Code
B. California Energy Code
C. California Plumbing Code
D. California Mechanical Code
E. California Electrical Code
F. California Fire Code
G. Title 16.52 Sunnyvale Municipal Code
H. Title 16.53 Sunnyvale Municipal Code
I. Title 16.54 Sunnyvale Municipal Code
J. Title 19 California Code of Regulations

Guidelines and Best Management Practices
B. Sunnyvale Citywide Design Guidelines
C. Sunnyvale Industrial Guidelines
D. Sunnyvale Single-Family Design Techniques
E. Sunnyvale Eichler Guidelines
F. Blueprint for a Clean Bay
G. SCVWD Guidelines and Standards for Land Use Near Streams
H. The United States Secretary of the Interior 's Guidelines for Rehabilitation
I. Criteria of the National Register of Historic Places
