SUBJECT: Trinity Church of Sunnyvale: Application for a 3.92 project located at 477 N. Mathilda Avenue in an M-S/POA Zoning District (APN: 165-28-022):

Motion 2011-7133: Use Permit to consider additional community recreational programs at a site occupied by Trinity Church of Sunnyvale.

REPORT IN BRIEF:

Existing Site Conditions

Surrounding Land Uses

North Restaurant
South Industrial and Service
East Commercial-Shopping Center (Sunnyvale Square)
West Industrial and Service

Issues

Compatibility of Use, Parking

Environmental Status

A Negative Declaration has been prepared in compliance with California Environmental Quality Act provisions and City Guidelines.

Staff Recommendation

Approve with Conditions

</table>
**DISCUSSION:**

**Requested Permit**

The proposed project is a Use Permit for additional recreational community programs at an existing church (Trinity Church of Sunnyvale). The Use Permit would allow outside groups to occupy a portion of the site (rear building) for various recreational programs. Currently, the church already operates various youth-sponsored recreational programs. The intent of the Use Permit would further define the use of the facilities for outside groups. There are no proposed changes the exterior appearance of the facilities, nor modifications to the site in terms of parking and landscaping. The overall hours of operation of the site would not be modified. The community programs include non-profit and city-sponsored community serving programs. The applicant has provided a project description in Attachment E.

- **Use Permit**

  The Use Program for expanded use of the facility includes the following programs as described the applicant:

  The Department of Public Safety Boxing Program plans to operate in the facility Monday through Friday between the hours of 3:30 and 8pm and on Saturday mornings between 10am-12pm. No more than 30 people would be present on-site at any one time. The age group of this program is 14-18.

  The Sunnyvale Wrestling Club, which includes coaches from Fremont high School, will operate in the building on Monday and Wednesday afternoons from 4-6pm as well as periodic Saturday mornings between 9am and 12pm. No more than 32 participants, including 4-5 coaches, would be present at any one time. This program will serve elementary through high school students between the ages 11-18.

  The Mountain View Volleyball Club would operate on a periodic basis for a volleyball league season during the school year plus select summer programs in June and July. The facility would be occupied by this group on two weeknights a week (4-9pm), Saturday (10am-2pm), and Sunday 4-8pm.
No more than 48 participants would be present at any one time. This program will also serve high school age students between ages 14-18.

The applicant notes that other programs may include smaller performing arts classes or after-school programs and activities. Such programs would serve children between ages 8-18 during the school day would be hosting a student activities or programs during vacation or school breaks.

The Trinity Youth group associated with the existing church would also continue to utilize the gym for its various activities. More discussion of the parking management for these programs is discussed in the “Parking/Circulation” section of this report.

ANALYSIS:

Development Standards
The proposed project complies with the applicable Development Standards as set forth in the Sunnyvale Municipal Code.

• Site Layout
The layout of the site consists of two buildings centrally located on the lot. The building located at the front of the site (approx. 30,000 s.f.) would continue to be occupied by the church use. The rear building (approx. 29,000 s.f.) which currently consists of an open recreational area (gym) would be available for the expanded activities. Parking is positioned around each of the buildings. The site retains primary access along North Mathilda Avenue. A shared driveway exists with the property to the north to enable secondary access to Maude Avenue. There are no proposed modifications to these existing conditions.

• Parking/Circulation
The site contains 204 parking spaces. There are no plans to modify the layout of the spaces. Bicycle racks are centrally located and positioned at the north and south sides of the buildings.

The current church use was originally approved in conjunction with a parking management plan which regulated the various activities at the site during the week. The plan was subsequently modified in 2008. The proposed expansion of uses at the site includes several changes to the adopted parking plan. The peak use at the site is during the congregation activities on Sundays. Since parking at the site is at maximum capacity on this day, the expanded recreational uses are proposed to take place on each of the other days of the week.
For “Education – Recreational and Enrichment” uses, Sunnyvale Municipal Code Section 19.46.050 requires 1 space per 4 students, plus 1 space per employee or 1 space per 250 sq. ft. of gross floor area, whichever is most restrictive. This rate is considered appropriate based on the educational/recreational nature of the proposed uses. In this case the 1 per 250 is more restrictive. Currently, the peak use of the site takes place on Sunday during worship services. This condition would remain with the new uses being proposed. The applicant has submitted a parking and use schedule in page 4 of Attachment E. Since the programs will primarily serve youths that are of high school age, the noted parking rate was based on the Municipal Code standard for educational uses for Grades 9-12 which requires 1 space per 4 students. Staff concurs that this rate could be considered accurate as many of the students would not drive to the facility. The parking demand may actually be much lower that the “recreation and enrichment” rate; nonetheless, staff has included the revised parking management plan based on the recreation and enrichment rate per Condition of Approval #AT-4a. As shown in the parking management table, the site provides adequate capacity for the combination of uses being proposed.

Staff has included Condition of Approval AT-4b, which requires separate approval for minor modifications to the parking management plan, including additional recreational programs, through a Miscellaneous Plan Permit. Major modifications shall require a separate application at a public hearing by the Planning Commission. Special events or festivals will require separate approval by the City to accommodate possible parking overflow, traffic circulation, hours of operation, number of people, locations at the site and noise attenuation efforts as stated in Condition of Approval GC-5a.

- **Landscaping**

  Landscaping stretches primarily around the perimeter of the site. There are no proposed changes to the landscaping related to this project.

**Environmental Review**

A Negative Declaration has been prepared in compliance with the California Environmental Quality Act provisions and City Guidelines. An initial study has determined that the proposed project would not create any significant environmental impacts (see Attachment C, Initial Study).

**FISCAL IMPACT**

No fiscal impacts other than normal fees and taxes are expected.

CONCLUSION

**Discussion:** Staff is supportive of the proposed expansion of use with adequate management of parking in place. Although located in a Place of Assembly combining district, staff notes that the surrounding area is industrial and that an increased population of youths or sensitive receptors will be present at the site. The applicant has satisfied conditions of approval that demonstrate an adequate emergency safety plan as well as an acknowledgement statement that such uses are “locating in an industrial area that may result in higher levels of noise, traffic, and exposure to hazardous materials than would normally be encountered in non-industrial areas.”

The intent of the Place Assembly combining district was to allow additional opportunities for community serving uses to locate while safeguarding existing industrial uses and neighborhoods. Consistent with the original approval for the church use of the site, staff is recommending Condition of Approval GC.5.d which states “that educational uses shall remain ancillary to the primary “Place of Assembly-Community Serving” use of the site. The property shall not be converted to a Educational-Primary and High School” use as defined by Sunnyvale Municipal Code.”

**Findings and General Plan Goals:** Staff was able to make the required Findings based on the justifications for the Use Permit. Recommended Findings and General Plan Goals are located in Attachment A.

**Conditions of Approval:** Recommended Conditions of Approval are located in Attachment B.
ALTERNATIVES

1. Adopt the Negative Declaration and approve the Use Permit with attached conditions.
2. Adopt the Negative Declaration and approve the Use Permit with modified conditions.
3. Adopt the Negative Declaration deny the Use Permit.
4. Do not adopt the Negative Declaration and direct staff as to where additional environmental analysis is required.

RECOMMENDATION

Recommend Alternative 1 to the Planning Commission: Adopt the Negative Declaration and approve the Use Permit with attached conditions.

Goals and Policies that relate to this project are:

**Land Use and Transportation Element**

**Policy N1.14** - Support the provision of a full spectrum of public and quasi-public services (e.g., parks, day care, group living, recreation centers, religious institutions) that are appropriately located in residential, commercial, and industrial neighborhoods and ensure that they have beneficial effects on the surrounding area.

**Policy N1.1** – Protect the integrity of the City’s neighborhoods; whether residential, industrial or commercial.

**Policy N1.1.4** – Anticipate and avoid whenever practical the incompatibility that can arise between dissimilar uses.

**Open Space and Recreation Sub-Element**

**Policy 2.2.B.2** – Provide school-aged, youth-oriented recreation and enrichment programs and services during non-school hours.

1. The proposed use attains the objectives and purposes of the General Plan of the City of Sunnyvale. *(Finding Met)*

The proposed expansion for additional recreational programs at the existing church is consistent with the established Place of Assembly zoning of the site as well as the goals of the General Plan. The projects allow for additional community serving recreational programs to be provided for youths at a convenient location along a busy central Sunnyvale corridor.

2. The proposed use ensures that the general appearance of proposed structures, or the uses to be made of the property to which the application refers, will not impair either the orderly development of, or the existing uses being made of, adjacent properties. *(Finding Met)*

As conditioned, the proposed expansion can be accommodated through a revised parking management plan. Further expansion is also limited through Conditions of Approval to ensure that capacity and compatibility issues are addressed on a case by case basis.
ATTACHMENT B

RECOMMENDED
CONDITIONS OF APPROVAL AND
STANDARD DEVELOPMENT REQUIREMENTS
APRIL 25, 2011

Planning Application 2011-7133
477 N. Mathilda Avenue

Use Permit to consider additional community recreational programs at a site occupied by Trinity Church of Sunnyvale.

The following Conditions of Approval [COA] and Standard Development Requirements [SDR] apply to the project referenced above. The COAs are specific conditions applicable to the proposed project. The SDRs are items which are codified or adopted by resolution and have been included for ease of reference, they may not be appealed or changed. The COAs and SDRs are grouped under specific headings that relate to the timing of required compliance. Additional language within a condition may further define the timing of required compliance. Applicable mitigation measures are noted with “Mitigation Measure” and placed in the applicable phase of the project.

In addition to complying with all applicable City, County, State and Federal Statutes, Codes, Ordinances, Resolutions and Regulations, Permittee expressly accepts and agrees to comply with the following Conditions of Approval and Standard Development Requirements of this Permit:

**GC: THE FOLLOWING GENERAL CONDITIONS AND STANDARD DEVELOPMENT REQUIREMENTS SHALL APPLY TO THE APPROVED PROJECT.**

**GC-1. CONFORMANCE WITH APPROVED PLANNING APPLICATION:**
All building permit drawings and subsequent construction and operation shall substantially conform with the approved planning application, including: drawings/plans, materials samples, building colors, and other items submitted as part of the approved application. Any proposed amendments to the approved plans or Conditions of Approval are subject to review and approval by the City. The Director of Community Development shall determine whether revisions are considered major or minor. Minor changes are subject to review and approval by the Director of Community Development. Major changes are subject to review at a public hearing. [COA] [PLANNING]

**GC-2. USE EXPIRATION:**
The approved Use Permit shall expire if the use is discontinued for a period of one year or more. [SDR] [PLANNING]
GC-3. PERMIT EXPIRATION:
The permit shall be null and void two years from the date of approval by the final review authority at a public hearing if the approval is not exercised, unless a written request for an extension is received prior to expiration date and is approved by the Director of Community Development. [SDR] [PLANNING]

GC-4. CONFORMANCE WITH PREVIOUS PLANNING PERMIT:
The subject site shall comply with all conditions of approval and requirements of planning application 2006-1109. [PLANNING] [COA]

GC-5. PLACES OF ASSEMBLY:
The approved use is for a Place of Assembly and shall be subject to the following restrictions:

  a) For all special events or festivals where expected attendance could exceed parking capacity, separate approval is required. Required permits shall indicate on a site plan where activities will take place on-site. These permits can be considered without need for a public hearing. Coordination with at least the Departments of Community Development and Public Safety is required for large events to address possible parking overflow, traffic circulation, hours of the event, number of people, locations at the site and noise attenuation efforts. A separate “Community Event,” or applicable permit, shall be filed with the City for further coordination with City departments.

  b) The applicant shall acknowledge in writing that it is locating in an industrial area that may result in higher levels of noise, traffic, and exposure to hazardous materials than would normally be encountered in non-industrial areas.

  c) The applicant shall adopt and submit for the approval of the City a safety plan designed to protect sensitive populations in the event of a nearby release of hazardous materials.

  d) The educational uses shall remain ancillary to the primary “Place of Assembly-Community Serving” use of the site. The property shall not be converted to a Educational-Primary and High School” use as defined by Sunnyvale Municipal Code.

GC-6. SIGNS:
All existing/new signs shall be brought into conformance with Title 19 of the Sunnyvale Municipal Code. [PLANNING] [COA]

AT: THE FOLLOWING CONDITIONS SHALL BE COMPLIED WITH AT ALL TIMES THAT THE USE PERMITTED BY THIS PLANNING APPLICATION OCCUPIES THE PREMISES.
AT-1. **RECYCLING AND SOLID WASTE:**
All exterior recycling and solid waste shall be confined to approved receptacles and enclosures. [COA] [PLANNING]

AT-2. **LOUDSPEAKERS PROHIBITED:**
Out-of-door loudspeakers shall be prohibited at all times. [COA] [PLANNING]

AT-3. **LANDSCAPE MAINTENANCE:**
All landscaping shall be installed in accordance with the approved landscape plan and shall thereafter be maintained in a neat, clean, and healthful condition. Trees shall be allowed to grow to the full genetic height and habit (trees shall not be topped). Trees shall be maintained using standard arboriculture practices. [COA] [PLANNING]

AT-4. **PARKING MANAGEMENT:**
On-Site parking management shall conform with the approved parking management plan. [COA] [PLANNING]

a) The following parking management plan table shall apply for uses of the site:

b) Minor modifications to this plan, including additional recreational programs, shall require a separate Miscellaneous Plan Permit approval. Major modifications shall require a separate application at a public hearing by the Planning Commission.

**AT-5. PARKING LOT MAINTENANCE:**

The parking lot shall be maintained in accordance with the approved plans and as follows:

a) Maintain all parking lot striping and marking.

b) Assure that adequate lighting is available in parking lots to keep them safe and desirable for the use.

c) Require signs to direct vehicles to additional parking spaces on-site, as needed.

d) Clearly mark all compact spaces as per approved plans. [COA] [PLANNING]

NOTICE OF INTENT TO ADOPT
NEGATIVE DECLARATION

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Use Permit by Trinity Church of Sunnyvale.

PROJECT DESCRIPTION AND LOCATION (APN):

2011-7133: Trinity Church of Sunnyvale [Applicant/Owner] Application for a Use Permit to consider additional recreational programs at a site occupied by Trinity Church of Sunnyvale, located at 477 N. Mathilda Avenue. (APN: 165-26-022) RK

WHERE TO VIEW THIS DOCUMENT:

The Negative Declaration, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on Monday, April 25, 2011. Protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:

A public hearing on the project is scheduled for:

Monday, April 25, 2011 at 8:00 p.m. in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:

(No) listed toxic sites are present at the project location.

Circulated On April 1, 2011

Signed: Gerri Caruso, Principal Planner

DESCRIPTION OF THE PROJECT: The proposed project is for a Use Permit to consider additional recreational programs within a building occupied by an existing church (Trinity Church of Sunnyvale). The use was permitted through a conditional Use Permit in 2007. The proposed expansion of the use would enable outside community groups to occupy the site at various times and days of the week. The approved parking management plan would be modified to enable the increased occupancy of the site at certain times of the week. The previous environmental review that was considered with the original Use Permit included a more limited scope of the activities and users of the site.

DETAILED PROJECT DESCRIPTION:

On-site Development: The current site consists of two buildings occupied by the Trinity Church of Sunnyvale. The building located at the front of the site (approx. 30,000 s.f.) would continue to be occupied by the church use. The rear building (approx. 29,000 s.f.) which currently consists of an open recreational area (gym) would remain unmodified; however, additional users and outside organizations would occupy the site, as proposed. The parking lot around the buildings would continue to serve the uses of both buildings and would also not be modified.

Construction Activities and Schedule: There is no construction related to this Use Permit. The proposed use will occupy an existing building intended for recreational activities.

Surrounding Uses and Setting: The property is located adjacent industrial uses to the south and west. A fast food restaurant (Wendy's) is located north of the site and retail shopping center is located across Mathilda Avenue to the east. Residential uses are also located across the street to the southeast.

Off-site Improvements: No off-site improvements are planned in conjunction with this Use Permit.
EVALUATION OF ENVIRONMENTAL IMPACTS:

1. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A “No Impact” answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A “No Impact” answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. “Potentially Significant Impact” is appropriate if there is substantial evidence that an effect may be significant. If there are one or more “Potentially Significant Impact” entries when the determination is made, an EIR is required.

4. “Negative Declaration: Potentially Significant Unless Mitigation Incorporated” applies where the incorporation of mitigation measures has reduced an effect from “Potentially Significant Impact” to a “Less Significant Impact.” The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, “Earlier Analysis,” may be cross-referenced).

5. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:

6. Earlier Analysis Used. Identify and state where they are available for review.

7. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

8. Mitigation Measures. For effects that are “Less than Significant with Mitigation Measures Incorporated,” describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

9. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
ENVIROMENTAL FACTORS POTENTIALLY AFFECTED:
The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a “Potentially Significant Impact” as indicated by the checklist on the following pages.

☐ Aesthetics  ☐ Hazards & Hazardous Materials  ☐ Public Services
☐ Agricultural Resources  ☐ Hydrology/Water Quality  ☐ Recreation
☐ Air Quality  ☐ Land Use/Planning  ☐ Transportation/Traffic
☐ Biological Resources  ☐ Mineral Resources  ☐ Utilities/Service Systems
☐ Cultural Resources  ☐ Noise  ☐ Mandatory Findings of Significance
☐ Geology/Soils  ☐ Population/Housing

MANDATORY FINDINGS OF SIGNIFICANCE (see checklist for further information):

Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? ☑ No

Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of the past projects, the effects of other current projects, and the effects of probable future projects)? ☑ No

Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? ☑ No
DETERMINATION:
On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☑

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. ☐

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required. ☐

I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. ☐

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. ☐

Checklist Preparer: Ryan M. Kuchenig

Further Discussion if “Less than Significant” with or without mitigation:

9. **Transportation and Traffic** (Less than Significant): The additional activities will increase parking demand on site on various days and times of the week. Through modifications to the previously established parking Management Plan (UP 2006-1108), the proposed uses will be limited to a certain maximum occupancy. Conditions of Approval will ensure that parking standards are met per Sunnyvale Municipal Code (19.46) standards

| 71. Recreation - Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment? | ☐ | ☐ | ☒ | ☐ | Open Space & Recreation Sub-Element  
www.sunnyvaleplanning.com  
Project Description |

**71. Recreation (Less than Significant):** The proposed project includes recreational activities that would occupy an existing gym. The facility is completely internal to the building and would not result in a physical change to the site. Increased activities at the site are to be addressed through modifications to the Parking Management Plan to address maximum capacity.

Accessory Use Amendment of Use Permit
TRINITY CHURCH OF SUNNYVALE

Updated March 22, 2011

Project Description: Trinity Church is requesting an Accessory Use Amendment of our current Use Permit to enhance the use of our Gateway (warehouse) facility at 477 N. Mathilda Avenue to include hosting other non-profit and city-sponsored community serving programs. It is important to note that our current use permit already accounts for Trinity-sponsored youth recreational activities on a daily basis at this facility. This application intends to further define that use to include specific outside groups and use schedules. This application does not involve changes to the already approved Use Permit in terms of: the exterior appearance of the facility, the planned hours of operation, the available on-site parking and does not include any outside lighting or activities.

The purpose of use for this Gateway building is to provide community serving programs to the youth of Sunnyvale. This will involve after-school and evening programs, weekend programs and potential daytime and evening summer camps. These programs will be sponsored and run by Trinity Church and/or a select set of outside non-profit organizations that already run such programs successfully in the local area.

INTENDED PROGRAMS IN THE BUILDING

This facility will house several outside groups who will be providing community programs in conjunction with Trinity Church of Sunnyvale. These include:

- Department of Public Safety Boxing Program. This program will operate in the facility on weekdays between the hours of 3:30 and 8pm and on Saturday mornings between 10am-12pm. This group will be no more than 30 people at any one time and utilize two boxing rings. The activities run by this program will be community serving and offered at low cost to youth of the community. This program will serve high school students (age 14-18).
- Sunnyvale Wrestling Club. Coaches from Fremont high School will be offering a low cost wrestling program to North Sunnyvale youth in this facility. This program will operate in the building on Monday and Wednesday afternoons from 4-6pm as well as periodic Saturday mornings between 9am and 12pm. This program will involve no more than 32 participants plus 4-5 coaches at any one time. This program will serve elementary through high school students (age 11-18).
- Mountain View Volleyball Club. This volleyball league will operate out of our facility on a periodic basis for a volleyball league season during the school year plus select summer programs in June and July. This program is being offered to the youth of Sunnyvale and surrounding communities. The program will run two weeknights a week (4-9pm), Saturday (10am-2pm) and Sunday 4-8pm. This program will engage no more than 48 participants at any one time. This program will serve high school students (age 14-18).
When not used by other programs, the building may be used by the Trinity Youth group or other Trinity-run community serving programs as approved in our original use permit. This program will serve elementary through high school students (age 8-18).

Other programs beyond recreation would include smaller performing arts classes or after-school programs and activities. This program will serve elementary through high school students (age 8-18). Possible use during the school day would be hosting a student activities or programs during vacation or school breaks.

Any large event activity involving more than 150 people planned by any of these programs must be approved in advance by Trinity Church and would require a special event permit to support those planned events.

The maximum occupancy of the building at any time will be 150 people.

These hours of operations will not coincide with Trinity Church assembly/worship service use on the property.

STATE OF THE BUILDING

The warehouse building has recently been retrofitted under approved construction permit to meet all current seismic and building code requirements as required by the Conditions of Use approved by City Council in 2007. This project did not change the exterior appearance or colors of the facility. Here are some importance considerations for the intended use of the facility:

- Outdoor Light. No additional outdoor lighting is being proposed for this amended use. Light from inside the building will shine onto Trinity’s patio and into the bush-lined parking lot on North side. There is no light impact on our neighbors.
- Emergency egress. All warehouse doors have been brought to current code as emergency exits with required emergency exit signage that is visible from all locations within the building. All locations within the building within 50' of a visible emergency exit. All emergency exits are unobstructed and the egress path and exit/gathering plan is outlined on the attached drawing.
- Noise. The doors to the facility will remain closed during operation to keep noise on the premises. Heating and air handling in the facility will require the doors to stay closed.
- Primary entry point will be the already-established main entry facing Maude Avenue.
- Restrooms. Restrooms in the facility have been retrofitted and brought up to code. 2 men’s stalls and two urinals as well as 4 women’s stalls are available in the building. In addition, much larger restrooms in the common area of the Trinity Church “front” (Phase 1) building will be accessible during the operation of the Gateway facility (Men 5 stalls/2 urinals; women 6 stalls)
- Water. A water cooler will be located in the Gateway facility near the restrooms and a water fountain in the common area of Trinity Church will be accessible as well.
- Exterior. The elevations and colors of the exterior of the building will not change from what was originally approved by the City in 2008.
- Water usage. There are no showers being provided in this building for the use of participants, therefore waste water will be limited to toilet and sink use.
- Waste. The use of this building will generate very limited trash due to the nature of the short-duration athletic use. Water cups and typical restroom waste can be supported by the existing dumpster on the property.

- Traffic. The traffic flow pattern for use of this facility will not deviate from the original approved use permit. Primary entrances on Maude, Mathilda Avenue will be used as already approved.

- Parking. The intended use of this Gateway facility is to serve the youth of Sunnyvale. As a result, actually parking demands will likely be less than typical norms since many of them will not be driving themselves to the facility. Nonetheless, the 208 parking spaces on the property will be sufficient to cover all parking requirements of the amended use of this building.

  - Users of the Gateway facility will be encouraged to park in the space on the West end of the property and on the North side of the building because this is closer to the Gateway “Maude Entrance”, which is facing Maude Avenue. Weekday parking demands at the church require a peak demand of 15 spaces and utilizes the spaces on the East (front) end of the property (facing Mathilda Avenue), which is closest to the “Church Offices” entrance.

  - Peak parking demand required for the Gateway facility will be the following: 10 spaces for boxing, 11 spaces for wrestling and 16 spaces for volleyball for a total of 37 spaces.

  - The parking requirements for recreational assembly areas outlined in Sunnyvale Municipal Code Section 19.46.050 is noted as: 1 space per every 3 fixed seats, plus 1 space per 21 sq. ft. of open area or seating space, plus 1 space per 400 sq. ft. of additional floor area. Since there is no fixed seating or seating space, the floor area metric would seem to apply. The roughly 24,000 sqft of usable floor area would require 60 spaces, which is easily supported by the existing available parking on the property during the intended hours of operation.

The proposed use attains the objectives and purposes of the General Plan of the City of Sunnyvale as the project focuses directly on the mission statement of the Open Space and Recreation Sub-Element (2.2) of the General Plan. Specifically, this intended use meets the recreation and arts goal for “Outstanding Recreation, Arts and Culture: To provide outstanding recreation programs, library services, and visual and performing arts to meet the interests and needs of the diverse population.” Furthermore, the overall mission statement of that Sub-Element says “We create community through people, parks and programs . . . and provide a wide range of accessible, high-quality open space and recreational programs and facilities, in order to meet the open space and recreational needs of a diverse and changing community.” The proposed use of this facility is specifically defined as a mixed-use recreation facility serving an underserved portion of the Sunnyvale Community. The facility is accessible to the people of North Sunnyvale who have shown they cannot logistically utilize programs or facilities south of 101 due to distance and transportation. This facility is accessible being located on the Mathilda gateway, at a VTA bus stop and on the direct route from Fremont High School to the North Sunnyvale neighborhoods. The intended mixed-use of our facility will address a set of diverse recreation needs for the community.
