**SUBJECT:** Shirdi Sai Darbar: Application on a 1.5-acre site located at 255 San Geronimo Way in an M-S/POA Zoning District (APN: 205-32-003):

**Motion** 2012-7141: Use Permit to allow a place of assembly (religious institution) within an existing industrial building.

**REPORT IN BRIEF:**

**Existing Site Conditions**
- Vacant Industrial Building

**Surrounding Land Uses**
- North: Place of Assembly (Iranian Christian Church)
- South: Place of Assembly (Korean Presbyterian Church)
- East: Industrial and Service & Place of Assembly (Zen Center)
- West: Sunnyvale East Channel and Industrial

**Issues**
- Neighborhood Compatibility, Parking, Landscaping

**Environmental Status**
- A Negative Declaration has been prepared in compliance with California Environmental Quality Act provisions and City Guidelines.

**Staff Recommendation**
- Approve with Conditions

Starred items indicate deviations from Sunnyvale Municipal Code requirements.

## BACKGROUND:

### Previous Actions on the Site

The existing building was built in 1977 and has been occupied by industrial and office uses. No significant Planning permits have been obtained for this property. The property is located within a neighborhood that contains existing industrial/office uses, as well as three other approved places of assembly uses. Residential uses are located within approximately 370 feet of the project site along E. Arques Avenue.
There is an existing parking agreement between the property owner and the adjacent Iranian Christian Church to the north, which allows the Church to use 101 parking spaces on the subject site on Sundays, between 9 a.m. and 1 p.m.

**DISCUSSION:**

**Requested Permit**

The proposed project is a Use Permit to allow a place of assembly (Shirdi Sai Darbar) to occupy an entire industrial building. The project involves minor building interior upgrades, as well as exterior site upgrades.

- **Use Permit**

  The Sunnyvale Municipal Code (SMC) allows consideration of places of assembly within an M-S/POA (Industrial and Service/POA) zoning district through a Use Permit. SMC 19.12.170 defines places of assembly as including “religious uses and facilities operated for worship; promotion of religious activities, including houses of worship and education and training.”

  The facility will generally be open seven days a week, from 6 a.m. to 9:30 p.m., and will be primarily used for prayer and meditation. “Prasad”, or small meals, will also be provided to patrons within the dining room, which will be catered from a restaurant. There will be no cooking on-site (Attachment E, Letter from the Applicant). The proposed project includes the following deviations:
  
  o Parking
  o Total landscaping
  o Parking lot shading

**Neighborhood Compatibility**

The subject property is located within a small industrial neighborhood with residential uses within the vicinity. This area bound by Arques Avenue to the north, Wolfe Road to the east, Central Expressway to the south and the Sunnyvale East Channel to the west were zoned with the Place of Assembly (POA) combining district in 2006. There are three other places of assembly uses in the area defined above, comprising of the Iranian Christian Church, Chung Tai Zen Center of Sunnyvale, and Korean Presbyterian Church, which was recently approved by the Planning Commission in 2010. Staff finds that the proposed use is compatible with the existing neighborhood.

**ANALYSIS:**

**Development Standards**

With the exception of on-site parking, landscaping and parking lot shading, the proposed project complies with the applicable Development Standards as set forth in the SMC.
• **Site Layout/Floor Plan**

The existing one-story building is situated at the front of the property and is surrounded by parking and landscaping on all sides. Access to the site is provided by two driveways along San Geronimo Way and Lucerne Drive, both of which are shared with the adjacent place of assembly uses. No significant changes are proposed to the overall site layout and no additional building area is proposed.

The interior floor plan consists of a main prayer room, reading/meditation room, library, dining room and administrative areas (i.e. office, storage, and lobby). Minor changes to the building interior are proposed, including upgrades required by the Building Safety and Fire Prevention Divisions to allow for compliance with accessibility standards, occupancy classification and fire codes (see Attachment B, Recommended Conditions of Approval).

• **Architecture**

The existing building is a standard one-story industrial tilt-up building and is consistent with other buildings found in the neighborhood. The applicant does not propose any exterior modifications to the building at this time. On similar applications for places of assembly uses in industrial areas, the Planning Commission has required architectural modifications to better reflect the non-industrial use of the building and may include changes to the exterior wall materials, re-painting, signs or design elements. Staff recommends that the existing building be upgraded to reflect the proposed use and would require separate review by the Director of Community Development (Attachment B, Recommended Conditions of Approval).

• **Parking/Circulation**

SMC 19.46.050 requires the following parking rates for place of assembly uses during the peak hours: one space per three fixed seats, plus one space per 21 square feet of open area or seating space, plus one space per 400 square feet of additional floor area, plus one space per employee, plus one space per special purpose vehicle. This parking requirement applies to all places of assembly, such as religious uses, cultural centers, and political organizations. Within the past several years, Sunnyvale has seen a greater diversity of these uses. The variety of ways that places of assembly are used present a challenge to staff to more appropriately determine the parking demand for the particular use.

Applying the SMC parking rates to the rooms used at the busiest time, a total of 379 parking spaces would be required. Based on the applicant’s estimates a total of 141 patrons and employees (volunteers) would be on-site during the peak hours, which are Thursdays and Saturdays between 5 p.m. and 8 p.m. This estimate is based on the applicant’s experience at another site with a similar use, which focuses on individual prayer and meditation (no structured services or classes). As seen in the table below, the number
of parking spaces required is more than double the number of patrons expected to be on-site.

</table>

**Staff Comments on Parking Deficiency:** Based on similar uses with open areas for worship and dining areas, such as the Zen Center across the street and a Hindu Temple located at 420 Persian Drive, staff has used the number of patrons on-site as a more accurate estimate of parking demand. More specifically, the Hindu Temple concluded that one parking space for every two patrons was a more reasonable estimate and limited the number of patrons on-site to double the number of parking spaces. Since the temple has been operating since 1994, it appears that parking is sufficient during “normal” operations (when there are no special events). This also seems to be the case for the Zen Center. Parking becomes an issue for the Hindu Temple and Zen Center during special events, such as religious festivals, funerals, and weddings when the number of patrons has exceeded the permitted limit.

Using this technique, staff finds that no more than 200 patrons would be permitted on-site at any given time, which is roughly double the number of the existing 103 on-site parking spaces. The applicant has also secured a parking agreement for 20 off-site parking spaces on the adjacent Iranian Church site for use Monday through Friday, and possibly Saturday. Based on staff’s analysis, the secured parking agreement, and differing peak hours from the adjacent churches (which are on Sundays before 1 p.m.), staff finds that would be sufficient parking to accommodate the use.
To further ensure reduced parking impacts, staff recommends the following conditions:

- No more than 200 patrons, employees, or volunteers may be on-site at any given time,
- The facility shall be closed to the general public every Sunday, between 9 a.m. and 1 p.m., or as modified by a parking agreement with the adjacent place of assembly use at 740 E. Arques Avenue,
- Special events and festivals expected to attract more than 200 people total on-site (e.g. religious festivals, weddings, funerals, etc.) that are expected to attract more than 200 people will require separate permits to address possible parking overflow, traffic circulation, hours of the event, number of attendees, event location and noise attenuation efforts.

- **Solid Waste and Recycling Facilities**
  
  An existing trash enclosure in the rear parking lot will be retained and upgraded to meet general requirements and design standards prescribed in SMC 19.38.030.

- **Landscaping**
  
  The existing site is legal non-conforming for total landscaping and parking lot shading. It has 6,173 square feet of landscaping (9.3% of the lot), which includes ground cover and trees. Approximately 2% (1,315) of the parking lot area is shaded with existing trees. The applicant proposes to modifications to the existing landscaped areas.

  **Staff Comments on Landscaping and Parking Lot Shading Deficiencies:** It is the City’s standard practice to require additional landscaping on legal nonconforming sites when possible. This can be accomplished by expanding existing tree wells and landscaping strips in the parking lot area, while still maintaining the existing number of parking spaces. The existing standard parking spaces are 9 feet deep and are permitted to overhang into landscaping areas by 2 feet. Staff’s rough estimate is that an additional 1,316 square feet of landscaping (2% of the site) can be accommodated within the parking lot area and adjacent to the building. Additional trees can be planted within the new landscaped areas, which will increase parking lot shading. Therefore, staff recommends the following condition of approval:

  - An additional 1,316 square feet (2% of the site) of landscaping shall be added on-site, with the goal of increasing parking lot shading.

As conditioned with additional landscaping, staff finds the landscaping and parking lot deficiencies to be reasonable.
• **Off-Site Upgrades**

SMC 19.38.080 requires installation of a public sidewalk along the property frontage (approximately 180 feet in length), which will connect to the existing sidewalks on both sides of the property. The new sidewalk could be fully accommodated within the landscaped public right-of-way. Therefore, no dedications or easements will be required. The new sidewalk is required to be installed prior to building occupancy and is subject to review and approval by the Department of Public Works (Attachment B, Recommended Conditions of Approval).

**Environmental Review**

A Negative Declaration has been prepared in compliance with the California Environmental Quality Act provisions and City Guidelines. An initial study has determined that the proposed project would not create any significant environmental impacts (see Attachment C, Initial Study).

According to the City’s Hazardous Materials Coordinator, there are two companies within the immediate vicinity that are required to obtain permits based on the types of materials and quantities stored on-site. Comparative Biosciences, located at 786 Lucerne Drive, is a research facility and hazardous waste generator that is permitted with corrosives, flammable liquids and oxidizers. Evans Analytical, located more than 1,000 feet away at 810 Kifer Road, is also a hazardous waste generator permitted with cryogens, flammable liquids and nonflammable gas. However, based on the types of materials and quantities stored on-site, the City’s Hazardous Materials Coordinator has indicated that the companies would not pose a significant risk to the proposed place of assembly.

The applicant has submitted a letter acknowledging that the place of assembly use is locating within an industrial area that may result in higher levels of noise, traffic, and exposure to hazardous materials that would not normally be encountered in non-industrial areas. In addition, the applicant will be working with the City’s Hazardous Materials Coordinator and a private consultant to prepare a site safety plan addressing potential risks to employees and patrons of the facility per Sunnyvale Municipal Code Chapter 19.98.020. The site safety plan must be reviewed and approved by the Director of Community Development and Hazardous Materials Coordinator prior to issuance of a building permit, and will be updated annually.

**FISCAL IMPACT**

No fiscal impacts other than normal fees and taxes are expected. Based on the hours of operation and the low attendance during weekday a.m. and p.m. peak commute hours, there will be no Transportation Impact Fee associated with this project.
PUBLIC CONTACT

Staff has not received any comments from neighbors at the time of the writing of the staff report.

CONCLUSION

Discussion: With implementation of the parking agreement and recommended conditions, staff finds that there will be sufficient parking spaces available to meet the parking demand for the proposed use during the peak hours. The additional landscaping conditioned by staff will also help to improve the aesthetics of the site. In addition, staff finds that the proposed use is compatible with the mix of uses found in the neighborhood. The proposed use is consistent with the POA combining district, and is similar to other assembly uses in the neighborhood.

Findings and General Plan Goals: Staff was able to make the required Findings based on the justifications for the Use Permit. Recommended Findings and General Plan Goals are located in Attachment A.

Conditions of Approval: Recommended Conditions of Approval are located in Attachment B.

ALTERNATIVES

1. Adopt the Negative Declaration and approve the Use Permit with attached conditions.
2. Adopt the Negative Declaration and approve the Use Permit with modified conditions.
3. Adopt the Negative Declaration and deny the Use Permit.
4. Do not adopt the Negative Declaration and direct staff as to where additional environmental analysis is required.
RECOMMENDATION

Recommend Alternative 1 to the Planning Commission: Adopt the Negative Declaration and approve the Use Permit with attached conditions.

Use Permit

Goals and Policies that relate to this project are:

**Land Use and Transportation Element**

**Policy N1.14** - Support the provision of a full spectrum of public and quasi-public services (e.g., parks, day care, group living, recreation centers, religious institutions) that are appropriately located in residential, commercial, and industrial neighborhoods and ensure that they have beneficial effects on the surrounding area.

**Policy N1.1** – Protect the integrity of the City’s neighborhoods; whether residential, industrial or commercial.

**Policy N1.1.4** – Anticipate and avoid whenever practical the incompatibility that can arise between dissimilar uses.

**Open Space and Recreation Sub-Element**

**Policy 2.2.B.2** – Provide school-aged, youth-oriented recreation and enrichment programs and services during non-school hours.

1. The proposed use attains the objectives and purposes of the General Plan of the City of Sunnyvale. *(Finding Met)*

The proposed place of assembly use would add to the range of services and uses available in the City and would provide a community resource. As conditioned, the use is consistent with the POA combining district and is similar to other approved place of assembly uses found in the neighborhood.

2. The proposed use ensures that the general appearance of proposed structures, or the uses to be made of the property to which the application refers, will not impair either the orderly development of, or the existing uses being made of, adjacent properties. *(Finding Met)*

The peak hours for the facility will occur during the off-peak hours of the adjacent properties. With implementation of the parking agreement with 740 E. Arques Avenue and recommended conditions, there will be sufficient parking spaces available to meet the parking demand for the facility during the peak hours. The additional landscaping conditioned by staff will also help to improve the aesthetics of the site.
ATTACHMENT B

CONDITIONS OF APPROVAL AND STANDARD DEVELOPMENT REQUIREMENTS
JUNE 25, 2012

Planning Application 2012-7141
255 San Geronimo Way

Use Permit to allow a place of assembly (religious institution) within an existing industrial building (Shirdi Sai Darbar).

The following Conditions of Approval [COA] and Standard Development Requirements [SDR] apply to the project referenced above. The COAs are specific conditions applicable to the proposed project. The SDRs are items which are codified or adopted by resolution and have been included for ease of reference, they may not be appealed or changed. The COAs and SDRs are grouped under specific headings that relate to the timing of required compliance. Additional language within a condition may further define the timing of required compliance. Applicable mitigation measures are noted with “Mitigation Measure” and placed in the applicable phase of the project.

In addition to complying with all applicable City, County, State and Federal Statutes, Codes, Ordinances, Resolutions and Regulations, Permittee expressly accepts and agrees to comply with the following Conditions of Approval and Standard Development Requirements of this Permit:

GC: THE FOLLOWING GENERAL CONDITIONS OF APPROVAL AND STANDARD DEVELOPMENT REQUIREMENTS SHALL APPLY TO THE APPROVED PROJECT.

GC-1. CONFORMANCE WITH APPROVED PLANNING APPLICATION:
All building permit drawings and subsequent construction and operation shall substantially conform with the approved planning application, including: drawings/plans, materials samples, building colors, and other items submitted as part of the approved application. Any proposed amendments to the approved plans or Conditions of Approval are subject to review and approval by the City. The Director of Community Development shall determine whether revisions are considered major or minor. Minor changes are subject to review and approval by the Director of Community Development. Major changes are subject to review at a public hearing. [COA] [PLANNING]

GC-2. USE EXPIRATION:
The approved use Permit for the use shall expire if the use is discontinued for a period of one year or more. [SDR] (PLANNING)
GC-3. PERMIT EXPIRATION:
The permit shall be null and void **one** year from the date of approval by the final review authority at a public hearing if the approval is not exercised, unless a written request for an extension is received prior to expiration date and is approved by the Director of Community Development. [SDR] (PLANNING)

GC-4. COMPLY WITH OR OBTAIN OTHER PERMITS::
The applicant is required to obtain all necessary permits and pay applicable fees from the Building Safety Division (Building Permit), Department of Public Safety (Fire Operations Permit), Department of Public Works (Encroachment Permit) and Santa Clara County Department of Environmental Health (for food preparation and service). [COA] [PLANNING]

**BP: THE FOLLOWING SHALL BE ADDRESSED ON THE CONSTRUCTION PLANS SUBMITTED FOR ANY DEMOLITION PERMIT, BUILDING PERMIT, GRADING PERMIT, AND/OR ENCROACHMENT PERMIT AND SHALL BE MET PRIOR TO THE ISSUANCE OF SAID PERMIT(S).**

BP-1. CONDITIONS OF APPROVAL:
Final plans shall include all Conditions of Approval included as part of the approved application starting on sheet 2 of the plans. [COA] [PLANNING]

BP-2. NOTICE OF PROJECT RESTRICTIONS:
A Notice of Project Restrictions shall be filed in the official records of the County of Santa Clara and provide proof of such recordation to the City prior to issuance of any City permit, allowed use of the property, or Final Map, as applicable. The Notice of Project Restrictions shall prepared by the Planning Division and shall include a description of the subject property, the Planning Application number, attached conditions of approval and any accompanying subdivision or parcel map, including book and page and recorded document number, if any, and be signed and notarized by each property owner of record. [COA] [PLANNING]

For purposes of determining the record owner of the property, the applicant shall provide the City with evidence in the form of a report from a title insurance company indicating that the record owner(s) are the person(s) who have signed the Notice of Project Restrictions. [COA] [PLANNING]
BP-3. BLUEPRINT FOR A CLEAN BAY:
The building permit plans shall include a “Blueprint for a Clean Bay” on one full sized sheet of the plans. [SDR] [PLANNING]

BP-4. GREEN BUILDING:
Comply with CALGreen requirements. [COA] [PLANNING/BUILDING]

BP-5. RECYCLING AND SOLID WASTE ENCLOSURE:
The building permit plans shall include details for the recycling and solid waste enclosure. The required solid waste and recycling enclosure shall include the following:

b) A concrete stress pad shall be constructed in front of the enclosure.

c) Wheel stops shall be installed per City standards. [COA] [PLANNING/PUBLIC WORKS]

BP-6. PARKING MANAGEMENT PLAN:
A Parking Management Plan shall be submitted for review and approval by the Director of Community Development prior to issuance of a building permit. The Parking Management Plan shall include the following [COA] [PLANNING]:

(a) Peak hour use;

(b) Vehicular circulation;

(c) Overall quantity of parking spaces;

(d) Distribution of parking on-site;

(e) Needs of specific users, including but not limited to employees, guests, residents and patrons; and

(f) Other circumstances that arise when oversight and control of parking spaces is needed. [COA] [PLANNING]

BP-7. PARKING AGREEMENT:
The parking agreement with the property located at 740 E. Arques Avenue shall be recorded at the County against the subject properties prior to issuance of a building permit. [COA] [PLANNING]

BP-8. SITE SAFETY PLAN:
The applicant shall develop a Site Safety Plan addressing the risks presented to employees and patrons, from the surrounding industrial facilities. The plan shall be approved by the Director of Community
Development and Hazardous Materials Coordinator prior to issuance of a building permit, and shall include the following components:

a) Identification of high risk locations within 1,000 ft.

b) Knowledge of risks presented by these facilities (toxic gases, corrosive vapors, liquid leaks, fires).

c) Contact information for nearby high risk facilities (names and phone numbers of management/safety personnel at nearby facilities).

d) Arrangements with nearby facilities for phone notification in the event of a hazardous material release or potential release.

e) Procedures for appropriate responses to chemical releases from nearby high risk facilities (complete evacuation/shelter in place procedures), addressing the specific needs of trainee/student population.

f) Initial and ongoing safety training program for staff to insure on-site personnel are familiar with the Site Safety Plan and emergency procedures.

g) Site and floor plan showing, at a minimum, building exits, evacuation routes, interior area of refuge (shelter in place), fire extinguishers and air handler shutoffs.

h) The plan shall be reviewed by the City’s Hazardous Materials Coordinator and updated annually. [COA] [PLANNING]

BP-9. BICYCLE SPACES:
Provide a minimum of 1 Class I (locker) and 5 Class II (racks) bicycle parking spaces (per VTA Bicycle Technical Guidelines). [COA] [PLANNING]

BP-10. ARCHITECTURAL UPGRADES:
Architectural upgrades are required to better reflect the non-industrial use of the building and may include modifications to exterior wall materials or colors, signs or design elements. Architectural upgrades may be considered by the Director of Community Development through a staff-level permit and shall be subject to review and approval prior to issuance of a building permit. [COA] [PLANNING]

BP-11. LANDSCAPING UPGRADES:
An additional 1,316 square feet (2% of the site) of landscaping shall be added on-site, with the goal of increasing parking lot shading. A landscaping plan shall be reviewed and approved by the Director of
Community Development through a staff-level permit prior to issuance of a building permit. [COA] [PLANNING]

BP-12. PUBLIC WORKS UPGRADES:
The following upgrades are required by the Department of Public Works:

a) Provide a 4' accessible ADA path around the northern driveway to access the sidewalks. AC conforming may be necessary.

b) Upgrade the existing 1-1/2" water meter to a radio-read water meter and relocate to the back of new sidewalk per City standard detail 4B. Water meter size to be verified by City's Fire Protection engineer.

c) Move the existing backflow prevention device to behind the property line per City standard detail 18B.

d) Install a new backflow prevention device enclosure as per City standard detail 19B.

BP-13. BUILDING UPGRADES:
The existing building shall be upgraded to meet current Sunnyvale Municipal Code requirements and State requirements for building safety, including but not limited to accessibility and restroom upgrades. [COA] [BUILDING]

BP-14. FIRE UPGRADES:
The existing site and building shall be upgraded to meet current Sunnyvale Municipal Code and State requirements for fire prevention and safety, including but not limited to:

a) Adequate number of approved fire extinguishers.

b) Fire sprinkler system upgrades.

c) Fire alarm system.

d) Exit systems, exist signs and emergency lighting.

e) Knox (key) box.

f) Dead-end fire apparatus roads (parking lot) in excess of 150 shall be provided with width and turnaround provisions as determined by the fire code official.

g) All means of egress systems, exit signs, and emergency lighting shall comply with the provisions of the California Fire Code.
h) Places of assembly require a Fire Operations permit, to be obtained and issued at the time of the Fire Prevention inspection, after completion of all construction. [COA] [PUBLIC SAFETY]

**EP: THE FOLLOWING CONDITIONS SHALL BE ADDRESSED AS PART OF AN ENCROACHMENT PERMIT APPLICATION.**

EP-1. NEW PUBLIC SIDEWALK:
A new public sidewalk shall be installed along the entire property frontage (approximately 180 feet in length) and shall be fully accommodated within the public right-of-way. The design of the sidewalk shall meet City standards and is subject to review and approval by the Department of Public, and shall be installed prior to building occupancy. [COA] [PLANNING]

**AT: THE FOLLOWING CONDITIONS OF APPROVAL AND STANDARD DEVELOPMENT REQUIREMENTS SHALL BE COMPLIED WITH AT ALL TIMES THAT THE USE PERMITTED BY THIS PLANNING APPLICATION OCCUPIES THE PREMISES.**

AT-1. USE:
The approved use is for a place of assembly and shall comply with the following use limitations:

a) No more than 200 patrons, employees, or volunteers may be on-site at any given time.

b) Any future increases in occupancy shall be subject to review and approval by the Director of Community Development. [COA] [PLANNING]

AT-2. HOURS OF OPERATION:
The use permitted as part of this application shall comply with the following hours of operation at all times:

a) The hours of operation are 6 a.m. to 9:30 p.m., seven days a week.

b) The facility shall be closed to the general public every Sunday, between 9 a.m. and 1 p.m., or as modified by a parking agreement with the adjacent place of assembly use at 740 E. Arques Avenue. [COA] [PLANNING]

AT-3. SPECIAL EVENTS AND FESTIVALS:
Special events and festivals expected to attract no more than 200 people are permitted by right (e.g. religious festivals, weddings,
funerals, etc). Events that are expected to attract more than 200 people will require separate permits to address possible parking overflow, traffic circulation, hours of the event, number of attendees, event location and noise attenuation efforts. [COA] [PLANNING]

AT-4. RECYCLING AND SOLID WASTE:
All exterior recycling and solid waste shall be confined to approved receptacles and enclosures. [COA] [PLANNING]

AT-5. PARKING MANAGEMENT:
On-Site parking management shall conform to the approved parking management plan. [COA] [PLANNING]

AT-6. PARKING LOT MAINTENANCE:
The parking lot shall be maintained in accordance with the approved plans and as follows:
   a) Maintain all parking lot striping and marking.
   b) Assure that adequate lighting is available in parking lots to keep them safe and desirable for the use.
   c) Clearly mark all compact spaces as per approved plans. [COA] [PLANNING]

AT-7. LANDSCAPING INSTALLTION:
All new landscaping and irrigation shall be installed prior to commencement of use. [COA] [PLANNING]
NOTICE OF INTENT TO ADOPT NEGATIVE DECLARATION

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:
Application for a Use Permit filed by Shridi Sai Darbar.

PROJECT DESCRIPTION AND LOCATION (APN):

FILE #: 2012-7141
Location: 255 San Geronimo Way (APN: 205-32-003)
Proposed Project: Use Permit to allow a place of assembly (religious institution) within an existing industrial building.
Applicant / Owner: Shridi Sai Darbar / Deerfield San Geronimo LLC
Environmental Review: Negative Declaration
Staff Contact: Noren Caliva, 408-730-7637, ncaliva@ci.sunnyvale.ca.us

WHERE TO VIEW THIS DOCUMENT:
The Negative Declaration, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on Monday, June 25, 2012. Protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:
A public hearing on the project is scheduled for:

Monday, June 25, 2012 at 8:00 p.m. in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:
(No) listed toxic sites are present at the project location.

Circulated On May 30, 2012
Signed: [Signature]
Gerri Caruso, Principal Planner
**Project Title**: Use Permit for 255 San Geronimo Way

| Lead Agency Name and Address | City of Sunnyvale  
| P.O. Box 3707, Sunnyvale, CA 94088-3707 |
| Contact Person | Noren Caliva, Associate Planner |
| Phone Number | 408-730-7637 |
| Project Location | 225 San Geronimo Way |
| Applicant's Name | Shirdi Sai Darbar |
| Project Address | 255 San Geronimo Way  
| Sunnyvale, CA 94085 |
| Zoning | M-S/POA (Industrial & Service/Places of Assembly) |
| General Plan | Industrial |
| Other Public Agencies whose approval is required | None |

**DESCRIPTION OF THE PROJECT:**

The proposed project is for a Use Permit to allow a place of assembly (Shirdi Sai Darbar) to occupy an entire 20,000 square foot industrial building. "Places of assembly" are defined in Sunnyvale Municipal Code Section 19.12.170 and includes "religious uses and facilities operated for worship; promotion of religious activities, including houses of worship and education and training." The facility will generally be open from 6:00 a.m. to 9:30 p.m., seven days a week. Weekday uses will include worship services, meditation, and religious studies/reading. The peak hours will be Thursdays and Saturdays from 5 p.m. and 8 p.m.

**DETAILED PROJECT DESCRIPTION:**

**On-site Development:** The project includes minor site upgrades for compliance with handicap and fire accessibility requirements. Site access will be maintained with two existing driveways off of San Geronimo Way, one of which is currently shared with the adjacent property to the north (Iranian Christian Church) located at 240 E. Arques Avenue. Minor parking lot and landscaping upgrades will also be completed. Exterior building modifications are limited to minor aesthetic upgrades, which will not result in additional building area.

**Construction Activities and Schedule:** On-site construction activity is limited to the minor exterior modifications and interior tenant improvements. The project will be subject to the Sunnyvale Municipal Code requirements for noise and hours of construction contained in Chapters 19.42.0.0 and 16.08.030.

**Surrounding Uses and Setting:** The existing building was previously occupied by an office use and is located within an industrial area, in which place of assembly uses may be permitted
through a Use Permit. The adjacent sites to the north and south are also place of assembly uses. There is an existing research and development business to the east, across San Geronimo Way. Several single-family and multi-family homes are located within approximately 300 feet of the project site along E. Arques Avenue.

Off-site Improvements: Off-site upgrades are limited to a new sidewalk that will be installed along the entire property frontage (approximately 180 feet in length), which will connect to the sidewalks on both sides of the property. The new sidewalk will be fully accommodated within the public right-of-way; therefore, no dedications or easements will be required.
EVALUATION OF ENVIRONMENTAL IMPACTS:

1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.

4. "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).

5. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:

6. Earlier Analysis Used. Identify and state where they are available for review.

7. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

8. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

9. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:
The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☐ Aesthetics  ☐ Hazards & Hazardous Materials  ☐ Public Services
☐ Agricultural Resources  ☐ Hydrology/Water Quality  ☐ Recreation
☐ Air Quality  ☐ Land Use/Planning  ☐ Transportation/Traffic
☐ Biological Resources  ☐ Mineral Resources  ☐ Utilities/Service Systems
☐ Cultural Resources  ☐ Noise  ☐ Mandatory Findings of Significance
☐ Geology/Soils  ☐ Population/Housing

MANDATORY FINDINGS OF SIGNIFICANCE (see checklist for further information):

Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?

☐ Yes  ☐ No

Mandatory Findings of Significance? Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of the past projects, the effects of other current projects, and the effects of probable future projects)?

☐ Yes  ☐ No

Mandatory Findings of Significance? Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

☐ Yes  ☐ No
DETERMINATION:
On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Further Discussion if “Less Than Significant” with or without mitigation: Based on the proposed floor plan, peak hours and expected number of patrons and employees on-site at a given time, the property provides sufficient on-site parking to meet parking requirements contained in Sunnyvale Municipal Code Chapter 19.46. Additional off-site shared parking spaces with the Iranian Christian Church to the north will also provide additional parking spaces for patrons during peak hours. As proposed, the site will provide adequate accessible parking spaces per State requirements and bicycle spaces consistent with Valley Transportation Authority standards.

Noise impacts are limited to short-term and temporary noise associated with the construction of the project. Through the City’s implementation of the Municipal Code noise regulations contained in Chapters 19.42.030 and 16.08.030, this impact will be lessened to a less than significant level during construction.

The proposed project is expected to have a less than significant impact on existing biological resources. As required by the California Department of Fish and Game, the CEQA document filing fee will be paid upon recordation of the Notice of Determination.

Further Discussion if "Less Than Significant" with or without mitigation: According to the City’s Hazardous Materials Coordinator, there are two companies within the immediate vicinity that are required to obtain permits based on the types of materials and quantities stored on-site. Comparative Biosciences, located across the street at 766 Lucerne Drive, is a research facility and hazardous waste generator that is permitted with corrosives, flammable liquids and oxidizers. Evans Analytical, located more than 1,000 feet away at 810 Kifer Road, is also a hazardous waste generator permitted with cryogens, flammable liquids and nonflammable gas. However, based on the types of materials and quantities stored on-site, the City’s Hazardous Materials Coordinator has indicated that the companies would not pose a significant risk to the proposed place of assembly.

The applicant has submitted a letter acknowledging that the place of assembly use is locating within an industrial area that may result in higher levels of noise, traffic, and exposure to hazardous materials that would not normally be encountered in non-industrial areas. In addition, the applicant will be working with the City’s Hazardous Materials Coordinator and a private consultant to prepare a site safety plan addressing potential risks to employees and patrons of the facility per Sunnyvale Municipal Code Chapter 19.98.020. The site safety plan must be reviewed and approved by the Director of Community Development and Hazardous Materials Coordinator prior to issuance of a building permit, and will be updated annually.

Other:
Shirdi Sai Darbar (applicant) has prepared a detailed use matrix and parking management plan in response to Planning comment #7 and #8 as described below.

**Detail of activities and usage of areas**

The building is proposed to be used as a religious facility by devotees of Shirdi Sai Baba. The timings of various uses are staggered so that all spaces are not used concurrently and there is no additional parking requirement from other spaces.

The flow of devotees is as follows:
1. Entrance lobby
2. Shoe room (to remove shoes as shoes are not allowed in the prayer room)
3. Main prayer room
4. Dining room
5. Shoe room and exit

The Main prayer room and dining room will be used by the same people and not at the same time. It is a linear movement through the facility.

The Meditation room is for quiet contemplation. Everyone coming to the temple first goes to the Main prayer room and then to any other area. Very few people will be using the meditation room and the same would have been counted in Main prayer room.

Offices and library are used on as needed basis.

**Use and Parking Requirement Matrix for Peak Usage**

Available parking spaces allocated to building = 101
Shared parking with Iranian Church (Mon-Fri) = 20 (We will be requesting to add Saturday)
Parking easement to Iranian church (Sunday 9am - 1pm) 101 spaces. *Shirdi Sai Darbar does not have any services scheduled at this time.*

The peak usage of the building is on Thursdays and Saturdays. We have used the following spaces for occupancy and parking calculations:
1. Main Prayer Room – 1 parking space per 21sf
2. Dining room will be used after the prayers by the same people from Main prayer room so no additional parking will be required for this.
3. Meditation room is for quiet contemplation by a very few people who are the same as have used Main prayer room so no additional parking will be required for this.
4. All other spaces – 1 parking space per 400sf.

Based on the above assumptions our maximum parking requirement is 92 which is well below the available parking. See Usage/Parking matrix below.

**Peak Usage**

<table>
<thead>
<tr>
<th>Day</th>
<th>Timing</th>
<th>Parking Requirement</th>

*On Thursday and Saturday Peak crowd will be 5PM to 8PM*
We have also developed a proposed Transportation Management program.

Shirdi Sai Darbar Transportation Demand Management Program

Shirdi Sai Darbar will implement a Transportation Demand Management Plan (TDM) to encourage bicycle and transit use to and from the site located at 255 San Geronimo Wy Sunnyvale, CA.

TRANSPORTATION DEMAND MANAGEMENT

Transportation Demand Management (TDM) refers to strategies to change travel behavior in order to increase transport system efficiency and achieve specific objectives such as reduced traffic congestion, road and parking cost savings, increase safety, improved mobility for non-drivers, energy conservation and pollution emission reductions.

The following TDM measures will be implemented by Shirdi Sai Darbar

**Promote Transit**

*We will provide transit system maps (Light Rail Station/Bus Transit), route schedules and other transportation information to our devotees.*

**Carpool/Ridesharing**

*We will request our devotees to car pool to our facility. We will encourage them to do the same on Thursdays, weekends and for special events days when we expect higher attendance.*

**Walk/Bike**

*If feasible, we will encourage walking or biking to our facility. Santa Clara Valley Transportation Authority (VTA) and City of Sunnyvale Bicycle maps will be available to our devotees.*

IMPLEMENTATION

*We will encourage our devotees to use one of the above mentioned alternative programs for commuting. We will take a survey to see how effective above mentioned programs are. We will implement the programs as soon as we start operating from 255 San Geronimo Wy Sunnyvale CA. We will take the survey 6 months after we start our operations. Should we exceed our parking requirements, we will look to implement more TDM measures such as shuttle service, more outreach and/or incentives to our devotees.*

**Main Events: Contract Private Shuttle Services will be provided by Shirdi Sai Darbar**

For All Main Events and Hindu Festivals Every Year, Contracted Private Shuttle Services will be used to ease the Parking Demand. The Contracted Shuttle Services will use Public parking Lots, such as Park-N-Ride, VTA Light Rail, Bart Parking Lots for Staging Purposes. Several Staging Areas have been identified per the table below.

List of Main events and Hindu festivals: approximate dates are given because the dates are based on lunar calendar and change slightly every year.
New Years Day – Jan 1st
Ramanavami – late March/early April
Shirdi Sai Baba Pranapratistha – Mid June
Guru Purnima – Mid July
Dussehra Mahasamadhi – mid Oct

At the main events we will make sure that the maximum number of people does not exceed 372 which is the occupant load of the Main Prayer Room. If more people come we will have an event management program in place and people will only be allowed to enter in stages.

Description: Use Permit to allow a community serving religious and educational facility (Shirdi Sai Darbar) in a 20,000 sq.ft. building on an MS/POA site.

Sub: Acknowledgement Letter for locating within an industrial area

Dear Madam/Sir,

Shirdi Sai Darbar (applicant) acknowledges that we are locating within an industrial area that may result in higher level of noise, traffic, and exposure to hazardous materials than would normally be encountered in non-industrial areas.

Sincerely,

Ashok Kumar and Uday Singh, Trustees

Shirdi Sai Darbar
