</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Notes:**
- All dimensions tolerances are in feet and inches.
- All lines are to be drawn in black ink.
- All dimensions are shown in meters/feet.
- All materials used are for illustration purposes only.
- Final dimensions to be determined in the field.

## Water Conservation statement:

The design has been developed to incorporate water conservation principles and practices. The use of native plants and efficient irrigation systems will help reduce water usage and promote a healthy, sustainable landscape.

## Minimum Tree Clearance Note:

1. All proposed trees will be protected from mechanical damage by a 4-foot wide strip of landscape fabric or equivalent material.
2. All proposed trees will be staked and protected from wind and vehicular damage.
3. All proposed trees will be watered regularly to ensure proper growth.
4. A maintenance plan will be developed to ensure the long-term health of the proposed trees.

## Irrigation System:

A drip irrigation system will be installed to maximize water efficiency. Each plant will be individually watered to ensure proper water distribution.

## PLANTING PALETTE

### TREES

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Botanical Name</th>
<th>Common Name</th>
<th>Misc.</th>
<th>Can. Size</th>
<th>Spacing</th>
<th>WUCOLS</th>
</tr>
</thead>
<tbody>
<tr>
