Lawrence Expressway Improvements

Mejoras al Lawrence Expressway / Lawrence Expressway改造

We want your input!

¡Queremos su opinión! / 我们需要您的意见

Please attend the second community workshop in a series of three to help shape the future of Lawrence Expressway improvements.

At this second workshop, we will present various improvement alternatives and provide area residents, commuters and community stakeholders with an opportunity to provide feedback on the solutions under consideration. Study information, maps and exhibits will be provided for interactive discussion during the meeting.

We are offering a morning and an evening session, both of which will cover the same material. Please join us at either session to learn about the options for improving Lawrence Expressway and help identify the desired solution.
