Comments: ① I like walking to the library.
② This is a once in a generation opportunity - think creatively for the long term.
③ Improve library collection. Consider branch libraries only if it does not drain resources from the main library.

Comments: Public safety - needs upgrade badly, new
facilities w/ technology, training rooms,
communication w/ public, I did SNAP training
I was surprised how old & low amenities; needs to
be more aesthetic; they deserve a nice space & quality
meeting rooms & technology.

Comments: I like that the Police/Fire is "set
back" from Olive Ave. Future Police car
access should only be on El Camino
Road - NOT Olive Ave. I live on
Olive Ave, and Police constantly race down
olive w/ sirens Blaring in the middle of
the night. We need to keep Police OFF olive,
(Unless servicing our neighborhood).
